Device Certificate Expiring

This alarm monitors pending device certificate expiration and is triggered when the amount of days prior to expiration reaches the time you specify (7, 30, 60 or 90 days). To configure this alarm, do the following:

Procedure

Step 1	In the main window click 😑 > Configure > Policies
Step 2	Click Add Policy.
Step 3	Enter a policy name in the Name field.
Step 4	Under Triggers, click Add Rules.
Step 5	Click Device Certificate Expiring.
Step 6	Click Next .
Step 7	By default, the rule is enabled. Toggle the switch to DISABLED if you do not want to activate the rule yet.
Step 8	Choose the expiration status required to trigger the alarm.
Step 9	Under the Severity drop-down list, select the severity level you want defined for this alarm.
Step 10	Make any other necessary interface and endpoint notification configurations, then click Save.
