Patch installation workflow

For instructions on installing the Crosswork Workflow Manager Solutions 2.0.3 patch, see [Crosswork Workflow Manager Release 2.0.3 Patch Installation Workflow](#).

Cisco bug search tool

You can use the Cisco Bug Search Tool to find detailed information about bugs in this release as well as in other releases.

1. Go to the [Cisco Bug Search Tool](#).
2. Enter your registered Cisco.com username and password and click **Log In**. The **Bug Search** page opens.

Note: If you do not have a Cisco.com username and password, you can [register here](#).

3. From the **Product** drop-down list, select **Series/Model** and enter **Cloud and Systems Management** in the search field.

-
4. Click **Select from List** and select **Cloud and Systems Management > Routing and Switching Management > Cisco Crosswork Workflow Manager**.
 5. From the **Release** drop-down list, choose the appropriate filter as, **Affecting or Fixed in Releases**, **Affecting Releases**, or **Fixed in Releases** and enter the release version in the search field.
 6. (Optional) You can enter additional criteria (such as bug ID, problem description, a feature, or a product name) in the search field.
 7. Click **Search**. When the search results are displayed, use the filter tools to narrow the results. You can filter the bugs by status, severity, and so on.
 8. To export the results to a spreadsheet, click **Export Results to Excel**.
