Cisco Global Launchpad Overview

Note Cisco DNA Center has been rebranded as Cisco Catalyst Center, and Cisco DNA Center VA Launchpad has been rebranded as Cisco Global Launchpad. During the rebranding process, you will see the former and rebranded names used in different collaterals. However, Cisco DNA Center and Catalyst Center refer to the same product, and Cisco DNA Center VA Launchpad and Cisco Global Launchpad refer to the same product.

Cisco Global Launchpad provides you with the tools you need to install and manage your Catalyst Center Virtual Appliance (VA). It helps you create and manage the services and components that are required for the AWS cloud infrastructure.

For specific information about deploying Catalyst Center using Cisco Global Launchpad, see the [Cisco DNA Center on AWS Deployment Guide](#).
