# New and Changed Information

## New and Changed Information

The following table summarizes the new and changed features for this release and tells you where they are documented.

*Table 1: New and Changed Features*

| Feature | Description | Where Documented |
|---|---|---|
| Cisco DNA Center Integration with ServiceNow Using the Cisco DNA App | The Cisco SD-Access integration with ServiceNow monitors and publishes fabric events that require fabric role updates for security or other operational triggers to an ITSM (ServiceNow) system. It also allows you to trigger or schedule a synchronization between Cisco DNA Center devices and the ServiceNow CMDB system. | Configure the Cisco SD-Access Integration with ITSM (ServiceNow) |

**Note**    The documentation set for this product strives to use bias-free language. For purposes of this documentation set, bias-free is defined as language that does not imply discrimination based on age, disability, gender, racial identity, ethnic identity, sexual orientation, socioeconomic status, and intersectionality. Exceptions may be present in the documentation due to language that is hardcoded in the user interfaces of the product software, language used based on standards documentation, or language that is used by a referenced third-party product.
