

## Preface

---

This preface describes the audience and organization of as well as the acronyms and conventions used in this document. It also provides information on how to obtain other documentation.

This preface includes the following sections:

- [Audience, on page i](#)
- [Document Organization, on page i](#)
- [Document Conventions, on page ii](#)
- [Related Documentation, on page ii](#)
- [Communications, Services, and Additional Information, on page iii](#)

## Audience

This guide is for administrators who configure and maintain the Cisco User Defined Network and for these administrators to manage the user accounts and devices in the Cisco User Defined Network.

## Document Organization

Chapter Number	Chapter Title	Description
Chapter 1	<b>Introduction to Cisco User Defined Network Cloud</b>	Provides an overview of the Cisco User Defined Network and information about the various components in a Cisco User Defined Network. This chapter also lists the supported versions of software components that are compatible with the Cisco User Defined Network.
Chapter 2	<b>Cisco User Defined Network Administration Portal</b>	Provides details about administrator actions on the Cisco User Defined Network Administration portal.

Chapter Number	Chapter Title	Description
Chapter 3	<b>Cisco User Defined Network Cloud Microservices</b>	Provides information about various workflows to register, deregister, and move devices in the Cisco User Defined Network.
Chapter 4	<b>Troubleshooting</b>	Provides instructions for troubleshooting any issues that may arise while using the Cisco User Defined Network cloud portal..

## Document Conventions

This document uses the following conventions:

**Table 1: Document Conventions**

Convention	Description
<b>Boldface</b>	Commands and keywords and user-entered text appear in <b>bold</b> font.
<i>Italics</i>	Document titles, new or emphasized terms, and arguments for which you supply values are in <i>italic</i> font.
<b>Option &gt; Option</b>	Used to describe a series of menu options or actions performed sequentially in a GUI menu.
<code>courier font</code>	Terminal sessions and information the system displays appear in <code>courier</code> font.

**Note** Means reader take note. Notes contain helpful suggestions or references to material not covered in this guide.

**Tip** Means the following information will help you solve a problem.

**Caution** Means reader be careful. In this situation, you might perform an action that could result in equipment damage or loss of data.
