

# Cisco ACI vRealize 8 Plug-in Release Notes, Release 1.0.0

## Introduction

Cisco Application Centric Infrastructure (ACI), in addition to integrating with VMware vCenter, integrates with VMware's products vRealize Automation (vRA) and vRealize Orchestrator (vRO). vRA and vRO are parts of the VMware vRealize Automation Suite for building and managing multivendor hybrid cloud environments.

**Note:** The documentation set for this product strives to use bias-free language. For the purposes of this documentation set, bias-free is defined as language that does not imply discrimination based on age, disability, gender, racial identity, ethnic identity, sexual orientation, socioeconomic status, and intersectionality. Exceptions may be present in the documentation due to language that is hardcoded in the user interfaces of the product software, language used based on RFP documentation, or language that is used by a referenced third-party product.

Date	Description
May 5, 2021	Cisco ACI vRealize 8 Plug-in 1.0.0 became available.

## New Software Features

Cisco ACI vRA integration is delivered through a set of cloud templates imported into the vRA appliance. The cloud templates leverage the vRO workflows, providing a set of APIC custom resources that allow you to deploy, manage, and remove networking components.

## Issues

[Cisco Bug Search Help Tool](#) (BST) is a web-based tool that acts as a gateway to the Cisco bug tracking system that maintains a comprehensive list of defects and vulnerabilities in Cisco products and software. BST provides you with detailed defect information about your products and software. Use the Bug Search Tool to search for a specific bug or to search for all bugs in a release.

There are no Open/ Resolved/ Known issues for this release.

## Compatibility Information

For a list of Cisco ACI releases supported by the Cisco ACI vRealize 8 Plug-in, see the [ACI Virtualization Compatibility Matrix](#).

## Related Content

See the [Cisco Application Policy Infrastructure Controller \(APIC\)](#) page for the documentation.

By using the "Choose a topic" and "Choose a document type" fields of the APIC documentation website, you can narrow down the displayed documentation list to make it easier to find the desired document.
