

# **Server Specifications**

• Server Specifications, on page 1

# **Server Specifications**

This appendix lists the physical, environmental, and power specifications for the server.

- Physical Specifications, on page 1
- Environmental Specifications, on page 1
- Physical Specifications, on page 1

### **Physical Specifications**

The following table lists the physical specifications for the server versions.

**Table 1: Physical Specifications** 

| Description       | Specification  |
|-------------------|--|
| Height            | 1.7 in. (43.2 mm)  |
| Width             | 16.9 in. (429.0 mm)  |
| Depth<br>(length) | Server only: 29.5 in. (740.3 mm)<br>Server with slide rail: 31.0 in (787.4 mm) |
| Weight            | Maximum: 37.5 lb. (17.0 Kg)<br>Minimum: 29.0 lb. (13.2 Kg)                     |

### **Environmental Specifications**

The following table lists the environmental requirements and specifications for the server.

#### **Table 2: Environmental Specifications**

| Description                                   | Specification   |
|---|---|
| Temperature, Operating                        | 50 to 95°F (10 to 35°C)   |
|   | Extended environment 41 to 104°F (5 to 40°C)  |
|   | Derate the maximum temperature by 1°C per every 305 meters of altitude above sea level.   |
|   | <b>Note</b> Although the ASHRAE guidelines define multiple classes with different operating ranges, the <i>recommended</i> temperature and humidity operating range is the same for each class. The <i>recommended</i> temperature and humidity ranges are: |
|   | • Operating Temperature: 64.4°F to 80.6°F (18°C to 27°C)  |
| Temperature, non-operating                    | -40 to 149°F (-40 to 65°C)  |
| (when the server is stored or transported)    |   |
| Humidity (RH), operating                      | 8 to 90%  |
| Humidity (RH), non-operating                  | 5 to 93%  |
| (when the server is stored or transported)    |   |
| Altitude, operating                           | 0 to 10,000 feet  |
| Altitude, non-operating                       | 0 to 40,000 feet  |
| (when the server is stored or transported)    |   |
| Sound power level                             | 5.5   |
| Measure A-weighted per ISO7779 LwAd (Bels)    |   |
| Operation at 73°F (23°C)                      |   |
| Sound pressure level                          | 40  |
| Measure A-weighted  per  ISO7779  LpAm  (dBA) |   |
| Operation at 73°F (23°C)                      |   |

## **Power Specifications**

The power specifications for the supported power supply options are listed in the following section.

### 1050 W AC Power Supply

This section lists the specifications for each 1050 W AC power supply (Cisco part number UCSC-PSU1-1050W).

#### Table 3: 1050 W AC Specifications

| Description                  | Specification  |
|------------------------------|--|
| AC Input Voltage             | Nominal range: 100–120 VAC, 200–240 VAC                        |
|                              | (Range: 90-132 VAC, 180-264 VAC)                               |
| AC Input Frequency           | Nominal range: 50 to 60Hz                                      |
|                              | (Range: 47–63 Hz)  |
| Maximum AC Input current     | 12.5 A at 100 VAC  |
|                              | 6.0 A at 208 VAC   |
| Maximum input volt-amperes   | 1250 VA at 100 VAC   |
| Maximum inrush current       | 15 A (sub-cycle duration)                                      |
| Maximum hold-up time         | 12 ms at 1050 W  |
| Maximum output power per PSU | 800 W at 100–120 VAC   |
|                              | 1050 W at 200–240 VAC  |
| Power supply output voltage  | 12 VDC   |
| Power supply standby voltage | 12 VDC   |
| Efficiency rating            | Climate Savers Platinum Efficiency (80Plus Platinum certified) |
| Form factor                  | RSP2   |
| Input connector              | IEC320 C14   |

## **Power Cord Specifications**

Each power supply in the server has a power cord. Standard power cords or jumper power cords are available for connection to the server. The shorter jumper power cords, for use in racks, are available as an optional alternative to the standard power cords.

Note

Only the approved power cords or jumper power cords listed below are supported.

#### Table 4: Supported Power Cords

| Description                                   | Length (Feet) | Length (Meters) |
|---|---------------|-----------------|
| CAB-48DC-40A-8AWG                             | 11.7          | 3.5             |
| DC power cord, -48 VDC, 40 A, 8 AWG           |               |                 |
| Three-socket Mini-Fit connector to three-wire |               |                 |

| [  |     |      |
