## Audience

This publication is for network administrators who install, configure, and maintain Cisco Nexus switches.

## Document Conventions

Command descriptions use the following conventions:

| Convention    | Description   |
|---------------|---|
| <b>bold</b>   | Bold text indicates the commands and keywords that you enter literally as shown.  |
| <i>Italic</i> | Italic text indicates arguments for which the user supplies the values.   |
| [x]           | Square brackets enclose an optional element (keyword or argument).  |
| [x   y]       | Square brackets enclosing keywords or arguments separated by a vertical bar indicate an optional choice.  |
| {x   y}       | Braces enclosing keywords or arguments separated by a vertical bar indicate a required choice.  |
| [x {y   z}]   | Nested set of square brackets or braces indicate optional or required choices within optional or required elements. Braces and a vertical bar within square brackets indicate a required choice within an optional element. |

| Convention      | Description   |
|-----------------|---|
| <i>variable</i> | Indicates a variable for which you supply values, in context where italics cannot be used.                                  |
| string          | A nonquoted set of characters. Do not use quotation marks around the string or the string will include the quotation marks. |

Examples use the following conventions:

| Convention                  | Description   |
|-----------------------------|---|
| <code>screen font</code>    | Terminal sessions and information the switch displays are in screen font.                                 |
| <b>boldface screen font</b> | Information you must enter is in boldface screen font.  |
| <i>italic screen font</i>   | Arguments for which you supply values are in italic screen font.  |
| <>                          | Nonprinting characters, such as passwords, are in angle brackets.   |
| [ ]                         | Default responses to system prompts are in square brackets.   |
| !, #                        | An exclamation point (!) or a pound sign (#) at the beginning of a line of code indicates a comment line. |
