

What's New in Cisco Product Documentation

August 2016

RSS

What's New in Cisco Product Documentation lists new and revised Cisco documentation since the last release of this monthly publication. To subscribe to the *What's New in Cisco Product Documentation* RSS feed, paste this URL into your RSS reader:

http://www.cisco.com/cdc_content_elements/rss/whats_new/whatsnew_rss_feed.xml

Previous releases of the *What's New in Cisco Product Documentation* are available at the following URL:

<http://www.cisco.com/c/en/us/td/docs/general/whatsnew/archive/archive.html>

Cisco Product Documentation Resources

Cisco Bug Search Tool

Bug Search Tool (BST), the online successor to Bug Toolkit, is designed to improve our customers' effectiveness in network risk management and device troubleshooting.

BST allows partners and customers to search for software bugs based on product, release, and keyword, and it aggregates key data such as bug details, product, and version.

Visit [Bug Search Tools & Resources](#) on Cisco.com. For details on the tool overview and functionalities, visit the help page at <http://www.cisco.com/web/applicat/cbsshelp/help.html>.

Cisco DocWiki

You can collaborate on Cisco documentation using Cisco DocWiki:

<http://docwiki.cisco.com>

Follow Cisco DocWiki on Facebook and Twitter:

- <http://www.facebook.com/#!/pages/Cisco-DocWiki/134288604079>
- http://twitter.com/cisco_docwiki

Cisco Icon Library

Cisco icons are globally recognized and generally accepted as standard for network icon topologies. Cisco icons are available for download:

<http://www.cisco.com/web/about/ac50/ac47/2.html>

Cisco International Websites

To find international Cisco websites, go to <http://www.cisco.com> and click **Worldwide** at the top of the page.

Cisco Internetworking Terms and Acronyms (ITA)

This resource defines internetworking terms and acronyms specific to Cisco products, technologies, or services. Some terms may also have descriptions unique to Cisco. The Cisco ITA does not duplicate industry-standard terms for which definitions can be found in other sources. To review this resource:

[http://docwiki.cisco.com/wiki/Category:Internetworking_Terms_and_Acronyms_\(ITA\)](http://docwiki.cisco.com/wiki/Category:Internetworking_Terms_and_Acronyms_(ITA))

Technical Documentation Ideas Forum

This forum allows you to communicate with other customers and Cisco technical writers. You can share your ideas about Cisco documentation on the Technical Documentation Ideas forum:

<http://www.cisco.com/go/techdocideas>

Analytics and Automation Software

None at this time.

Application Networking Services

- [Cisco Wide Area Application Services Command Reference \(Software Version 6.2.1\)](#)
Lists and describes each WAAS CLI command.
- [Cisco Wide Area Application Services vWAAS Installation and Configuration Guide](#)
Describes how to install and configure vWAAS.
- [Configuration Guide for Cisco Wide Area Application Services \(Software Version 6.2.1\)](#)
Describes how to configure and use WAAS devices.
- [Release Note for Cisco Wide Area Application Services \(Software Version 5.5.5x\)](#)
Describes the new features, resolved and open caveats, CM changes, and CLI command changes for Cisco WAAS Software Version 5.5.5x.
- [Release Note for Cisco Wide Area Application Services \(Software Version 5.5.7\)](#)
Describes the new features, resolved and open caveats, CM changes, and CLI command changes for Cisco WAAS Software Version 5.5.7.
- [Release Note for Cisco Wide Area Application Services \(Software Version 6.1.1x\)](#)
Describes the new features, resolved and open caveats, CM changes, and CLI command changes for Cisco WAAS Software Version 6.1.1x.
- [Release Note for Cisco Wide Area Application Services \(Software Version 6.2.1\)](#)
Describes the new features, resolved and open caveats, CM changes, and CLI command changes for Cisco WAAS Software Version 6.2.1.

Cisco Interfaces and Modules

None at this time.

Cloud and Systems Management

None at this time.

Collaboration Endpoints

- [Cisco DX70 and DX80 Administrator Guide \(CE8.2\)](#)

Provides information required to administrate the DX70 and DX80 video systems using software version CE8.2. The web interface is described, and the system settings available via the web interface are explained.

- [Cisco DX70 and DX80 API Reference Guide \(CE8.2\)](#)

Describes the API for the DX70 and DX80 using software version CE8.2. Commands described are xCommand, xConfiguration, xStatus, xEvent, xFeedback, xPreferences and SystemTools.

- [Cisco DX70 and DX80 Convert Between CE and Android Based Software \(CE8.2\) Rev 01](#)

This guide describes how to migrate Cisco DX70 and Cisco DX80 from Android-based software to Collaboration Endpoint Software (CE software), and how to convert back from CE software to Android-based software.

- [Cisco DX70 and DX80 User Guide \(CE8.2\)](#)

Describes the use of Cisco DX70 and DX80. You can learn about the system user interface, call control and in-call features, and about phone book usage.

- [Cisco TelePresence CE Software Release Notes \(CE8\)](#)

Describes the features and capabilities included in the Cisco TelePresence DX, MX, and SX series software version CE8.

- [Cisco TelePresence Codec SX10 API Reference Guide \(CE8.2\)](#)

Describes the API for Codec SX10 using software version CE8.2. Commands described are xCommand, xConfiguration, xStatus, xHistory, xEvent, xFeedback, xPreferences and SystemTools.

- [Cisco TelePresence Codec SX20 API Reference Guide \(CE8.2\)](#)

Describes the API for Codec SX20 using software version CE8.2. Commands described are xCommand, xConfiguration, xStatus, xHistory, xEvent, xFeedback, xPreferences and SystemTools.

- [Cisco TelePresence DX, MX and SX Series Getting Started Guide \(CE8.2\)](#)

Describes the initial configuration of Cisco TelePresence DX, MX, and SX series video systems running CE software version CE8.2. This includes setting passwords, and configuring IP, H.323 and SIP using the remote control, the Touch controller, touchscreen, or the web interface.

- [Cisco TelePresence IL Software Release Notes \(IL1\)](#)

These release notes describe the features and capabilities included in the Cisco TelePresence ISDN Link software IL 1.

- [Cisco TelePresence MX and SX Series In-Room Control Editor - Download and Unzip \(CE8.2.0\)](#)

Contains the In-Room Control editor for Cisco TelePresence MX and SX series for software version CE8.2.0.

- [Cisco TelePresence MX and SX Series In-Room Control Guide \(CE8.2\)](#)

Describes how to setup and use the In-Room Control feature with the Cisco TelePresence MX and SX series video systems. With the In-Room Control editor you can add custom elements to our Touch 10 user interface. Such user interface extensions may be controls for lights or blinds, or other peripherals controlled by external control systems.

- [Cisco TelePresence MX and SX Series User Guide for Touch 10 \(CE8.2\)](#)

Describes the use of the MX and SX series video systems with a Touch controller. You will learn about the Touch 10, camera adjustments/presets, call control and in-call features, the use of favorites, directory and call history, and details of the Settings menu.

- [Cisco TelePresence MX200 G2 and MX300 G2 Administrator Guide \(CE8.2\)](#)

Provides information required to administrate the MX200 G2 and MX300 G2 video systems using software version CE8.2. The web interface is described, and the system settings available via the web interface are explained.

- [Cisco TelePresence MX200 G2 and MX300 G2 API Reference Guide \(CE8.2\)](#)

Describes the API for the MX200 G2 and MX300 G2 using software version CE8.2. Commands described are xCommand, xConfiguration, xStatus, xEvent, xFeedback, xPreferences and SystemTools.

- [Cisco TelePresence MX700 and MX800 Administrator Guide \(CE8.2\)](#)

Provides information required to administrate the MX700 and MX800 video systems using software version CE8.2. The web interface is described, and the systems settings available via the web interface are explained.

- [Cisco TelePresence MX700 and MX800 API Reference Guide \(CE8.2\)](#)

Describes the API for the MX700 and MX800 using software version CE8.2. Commands described are xCommand, xConfiguration, xStatus, xEvent, xFeedback, xPreferences and SystemTools.

- [Cisco TelePresence MX700 Cable Schema](#)

Cable schema for Cisco TelePresence MX700.

- [Cisco TelePresence MX700 Spare Parts Overview](#)

This document is made to help determine Cisco TelePresence MX700 spare parts for order and replacement purposes.

- [Cisco TelePresence MX700 Spare Parts Replacement Guide](#)

This document describes how to replace spare parts for Cisco TelePresence MX700.

- [Cisco TelePresence MX800 Dual Cable Schema](#)

Cable schema for Cisco TelePresence MX800 Dual.

- [Cisco TelePresence MX800 Dual Spare Parts Overview](#)

This document is made to help determine Cisco TelePresence MX800 Dual spare parts for order and replacement purposes.

- [Cisco TelePresence MX800 Dual Spare Parts Replacement Guide](#)

This document describes how to replace spare parts for Cisco TelePresence MX800 Dual.

- [Cisco TelePresence MX800 Single Cable Schema](#)

Cable schema for Cisco TelePresence MX800 Single.

- [Cisco TelePresence MX800 Single Spare Parts Overview](#)

This document is made to help determine Cisco TelePresence MX800 Single spare parts for order and replacement purposes.

- [Cisco TelePresence MX800 Single Spare Parts Replacement Guide](#)

This document describes how to replace spare parts for Cisco TelePresence MX800 Single.

- [Cisco TelePresence SX Series User Guide for Remote Control \(CE8.2\)](#)

Describes the use of Cisco TelePresence SX10 and SX20 Quick Set with a remote control. You can learn about the remote control, the system and call settings, camera adjustments/presets, call control and in-call features and about phone book usage.

- [Cisco TelePresence SX10 Quick Set Administrator Guide \(CE8.2\)](#)

Provides information required to administrate the Cisco TelePresence SX10 Quick Set using software version CE8.2. The web interface and the system settings that are available via the web interface are explained.

- [Cisco TelePresence SX20 Quick Set Administrator Guide \(CE8.2\)](#)

Provides information required to administrate the Cisco TelePresence Codec SX20 based Quick Set video systems using software version CE8.2. The web interface is described, and the system settings available via the web interface are explained.

- [Cisco TelePresence SX80 Administrator Guide \(CE8.2\)](#)

Provides information required to administrate the SX80 codec using software version CE8.2. The web interface and the system settings that are available via the web interface are explained.

- [Cisco TelePresence SX80 API Reference Guide \(CE8.2\)](#)

Describes the API for the SX80 codec using software version CE8.2. Commands described are xCommand, xConfiguration, xStatus, xEvent, xFeedback, xPreferences and SystemTools.

- [Using Extra Loudspeakers and Sound Reinforcement](#)

A guide to providing a better auditory experience on Cisco TelePresence SX80, MX700 and MX800 video systems.

Conferencing

- [Cisco TelePresence ISDN GW 3241 & MSE 8321 Version 2.2 \(1.114\) P Software release notes](#)

Describes the features of this release, lists the resolved and open issues, and details the upgrade process.

- [Cisco TelePresence Server 4.2\(4.25\) Open Source Documentation](#)

Contains license information for open source components used in Cisco TelePresence Server 4.2(4.25). (Applicable to MSE 8710 and 7010 only.)

- [Cisco TelePresence Server 4.2\(4.25\) Printable Online Help for 8710 or 7010 \(Locally Managed mode\)](#)

Contains the Online Help in PDF printable format for Cisco TelePresence Server 8710 or 7010 (Locally Managed mode) software version 4.2(4.25).

- [Cisco TelePresence Server 4.3\(1.14\) Open Source Documentation](#)

Contains license information for open source components used in Cisco TelePresence Server 4.3(1.14) MR1.

- [Cisco TelePresence Server 7010 and MSE 8710 4.2\(4.25\) Release Notes](#)

Describes the features of the TelePresence Server 4.2 release, provides links to open and resolved issues for this maintenance release, and describes the upgrade procedure. Applies to 7010, MSE 8710, Media 310/320, and TS on Virtual Machine.

- [Cisco TelePresence Server on Virtual Machine 4.3\(1.14\) Open Source Documentation](#)

Contains license information for open source components used in Cisco TelePresence Server on Virtual Machine 4.3(1.14) MR1.

- [Cisco TelePresence Server Software Release Notes 4.3\(1.14\)](#)

Describes the features of the TelePresence Server 4.3 release, provides links to open and resolved issues for this maintenance release, and describes the upgrade procedure. Applies to 7010, MSE 8710, Media 310/320, and TS on Virtual Machine.

Connected Safety and Security

None at this time.

Customer Collaboration

None at this time.

Data Center Analytics

None at this time.

Hyperconverged Infrastructure

None at this time.

IOS and NX-OS Software

- [Release Notes for Cisco IOS XRv 9000 Router, Release 6.0.2](#)

Provides information about new features, hardware, software support, and caveats for Cisco IOS XRv 9000 router.

Optical Networking

None at this time.

Routers

- [Cisco IOS XR Application Hosting Configuration Guide](#)

Describes application hosting and the Linux environment used for hosting applications on the Cisco IOS XR Operating System.

- [Cisco IOS XR Programmability Configuration Guide for NCS 5500 Series Router](#)

Describes the programmability configurations for NCS 5500 Series Routers.

- [Cisco IOS XR Telemetry Configuration Guide](#)

Describes the process of streaming telemetry data and its core components.

- [Hardware Installation Guide for Cisco NCS 5500 Series Routers](#)

Describes various installation and verification steps for the Cisco NCS 5500 Series Routers.

- [Interface and Hardware Component Configuration Guide for Cisco NCS 5500 Series Routers, IOS XR Release 6.0.x](#)

Describes how to enable and configure interface and hardware components on the Cisco NCS 5500 Series Router.

- [Introduction to Operational Enhancements in Cisco IOS XR](#)

Describes a new set of operational innovations to address key next generation operational requirements provided by Cisco IOS XR.

- [IP Addresses and Services Command Reference for Cisco NCS 5500 Series Routers](#)

Describes the IP Addresses and Services commands used on the Cisco NCS 5500 Series Router.

- [IP Addresses and Services Configuration Guide for Cisco NCS 5500 Series Routers, IOS XR Release 6.0.x](#)

Describes how to enable and configure IP Addresses on the Cisco NCS 5500 Series Router.

- [Modular QoS Command Reference for Cisco NCS 5500 Series Routers](#)

Describes the Modular Quality of Service commands used on the Cisco NCS 5500 Series Router.

- [Modular QoS Configuration Guide for Cisco NCS 5500 Series Routers, IOS XR Release 6.0.x](#)
Describes how to enable and configure Modular Quality of Service on the Cisco NCS 5500 Series Router.
- [Netflow Command Reference for Cisco NCS 5500 Series Routers](#)
Describes the Netflow commands used on the Cisco NCS 5500 Series Router.
- [Netflow Configuration Guide for Cisco NCS 5500 Series Routers, IOS XR Release 6.0.x](#)
Describes how to configure Netflow on the Cisco NCS 5500 Series Router.
- [Release Notes for Cisco ASR 9000 Series Aggregation Services Routers for Cisco IOS XR Software, Release 6.0.2](#)
Provides information about new features, hardware, software support, and caveats for Cisco ASR 9000 Series Routers.
- [Release Notes for Cisco NCS 5500 Series Routers, Release 6.0.2](#)
Provides information about new features, hardware, software support, and caveats for Cisco NCS 5500 Series Routers.
- [Routing Command Reference for Cisco NCS 5500 Series Routers](#)
Describes how to enable and configure Routing on the Cisco NCS 5500 Series Router.
- [Routing Configuration Guide for Cisco NCS 5500 Series Routers, IOS XR Release 6.0.x](#)
Describes how to enable and configure Routing on the Cisco NCS 5500 Series Router.
- [System Monitoring Command Reference for Cisco NCS 5500 Series Routers](#)
Describes the system monitoring commands used on the Cisco NCS 5500 Series Router.
- [System Monitoring Configuration Guide for Cisco NCS 5500 Series Routers, IOS XR Release 6.0.x](#)
Describes how to monitoring tasks and configurations on the Cisco NCS 5500 Series Router.
- [System Security Command Reference for Cisco NCS 5500 Series Routers](#)
Describes the System Security commands used on the Cisco NCS 5500 Series Router.
- [System Security Configuration Guide for Cisco NCS 5500 Series Routers, IOS XR Release 6.0.x](#)
Describes how to enable and configure System Security on the Cisco NCS 5500 Series Router.
- [System Setup and Software Installation Guide for Cisco NCS 5500 Series Routers, IOS XR Release 6.0.x](#)
Describes how to enable and configure System Setup and Software Installation of Cisco NCS 5500 Series Router.

Security

- [Cisco Stealthwatch Learning Network License Configuration Guide](#)
Describes the Learning Network License controller web UI and related functionality.
- [Cisco Stealthwatch Learning Network License Release Notes](#)
Describes the Learning Network License system upgrade process and known issues.
- [Cisco Stealthwatch Learning Network License UCS E-Series Server Installation Guide](#)

Describes the installation process for a Learning Network License controller and agent deployed to an ISR's UCS E-Series blade server, as well as logging configuration and pxGrid/ISE integration.

- [Cisco Stealthwatch Learning Network License UCS E-Series Server Quick Start Guide](#)

Describes the installation process for a Learning Network License controller and agent deployed to an ISR's UCS E-Series blade server.

- [Cisco Stealthwatch Learning Network License Virtual Service Installation Guide](#)

Describes the installation process for a Learning Network License controller and agent deployed as a virtual service on an ISR, as well as logging configuration and pxGrid/ISE integration.

- [Cisco Stealthwatch Learning Network License Virtual Service Quick Start Guide](#)

Describes the installation process for a Learning Network License controller and agent deployed as a virtual service on an ISR.

Unified Communications

- [Cisco Collaboration and Microsoft Interoperability Configuration Cheatsheet \(Cisco Expressway X8.8\)](#)

Summarizes the tasks required on Cisco collaboration and Microsoft Lync infrastructure to enable on-premises communications between Microsoft clients and Cisco Jabber.

- [Cisco Expressway Administrator Guide \(X8.8\)](#)

Describes the configuration and maintenance of Cisco Expressway X8.8.

- [Cisco Expressway and CUCM via SIP Trunk Deployment Guide \(CUCM 8,9,10,11 and X8.8\)](#)

Provides step-by-step instructions for deploying a Cisco Expressway with Cisco Unified Communications Manager over a SIP trunk.

- [Cisco Expressway and Microsoft Infrastructure Deployment Guide \(X8.8\)](#)

Provides step-by-step instructions for deploying a Cisco Expressway with Cisco Unified Communications Manager over a SIP trunk, and with a gateway to Microsoft collaboration infrastructure.

- [Cisco Expressway CE1100 Appliance Installation Guide \(X8.8\)](#)

Describes the installation and initial configuration procedure for the Cisco Expressway CE1100 appliance.

- [Cisco Expressway Certificate Creation and Use Deployment Guide \(X8.8\)](#)

Provides step-by-step instructions for creating X.509 cryptographic certificates for use with the Cisco Expressway.

- [Cisco Expressway Cluster Creation and Maintenance Deployment Guide \(X8.8\)](#)

Provides step-by-step instructions for deploying a cluster of Cisco Expressway systems.

- [Cisco Expressway on Virtual Machine Installation Guide \(X8.8\)](#)

Provides step-by-step instructions for deploying Cisco Expressway software on a Virtual Machine.

- [Cisco Expressway Release Note \(X8.8\)](#)

Details new features, issues, changed behavior, and limitations in Cisco Expressway X8.8.

- [Cisco Expressway REST API Reference Guide \(X8.8\)](#)

Provides instructions on configuring Mobile and Remote Access using the Cisco Expressway REST API.

- [Cisco TelePresence Video Communication Server Administrator Guide \(X8.8\)](#)

Describes the configuration and maintenance of Cisco VCS X8.8.

- [Cisco TelePresence Video Communication Server Release Note \(X8.8\)](#)

Details new features, issues, changed behavior, and limitations in Cisco VCS X8.8.

- [Cisco VCS and CUCM Deployment Guide \(CUCM 8,9,10,11 and X8.8\)](#)

Provides step-by-step instructions for deploying a Cisco VCS with Cisco Unified Communications Manager.

- [Cisco VCS and Microsoft Infrastructure Deployment Guide \(X8.8\)](#)

Provides step-by-step instructions for deploying a Cisco VCS with Microsoft Collaboration infrastructure.

- [Cisco VCS CE1100 Appliance Installation Guide \(X8.8\)](#)

Describes the installation and initial configuration procedure for the Cisco VCS CE1100 appliance.

- [Cisco VCS Certificate Creation and Use Deployment Guide \(X8.8\)](#)

Provides step-by-step instructions for creating X.509 cryptographic certificates for use with the Cisco VCS.

- [Cisco VCS Cluster Creation and Maintenance Deployment Guide \(X8.8\)](#)

Provides step-by-step instructions for deploying a cluster of Cisco VCS systems.

- [Cisco VCS REST API Reference Guide \(X8.8\)](#)

Provides instructions on configuring Mobile and Remote Access using the Cisco VCS REST API.

- [Cisco VCS Virtual Machine Installation Guide \(X8.8\)](#)

Provides step-by-step instructions for deploying Cisco VCS software on a Virtual Machine.

- [Mobile and Remote Access via Cisco Expressway Deployment Guide \(X8.8\)](#)

Provides step-by-step instructions for deploying a Cisco Expressway system to allow endpoints such as Cisco Jabber to have their registration, call control, provisioning, messaging and presence services provided by Cisco Unified Communications Manager when the endpoint is not within the enterprise network.

- [Mobile and Remote Access via Cisco VCS Deployment Guide \(X8.8\)](#)

Provides step-by-step instructions for deploying a Cisco VCS system to allow endpoints such as Cisco Jabber to have their registration, call control, provisioning, messaging and presence services provided by Cisco Unified Communications Manager when the endpoint is not within the enterprise network.

Creating Bookmarks to Cisco.com Pages

After you log in to Cisco.com, you can use the My Cisco tool to save links and documents. You can then go to the links from any Cisco.com page. The tool is available on most Cisco.com pages. See the *My Cisco User Guide* for help:

<http://www.cisco.com/web/help/mycisco.html>

Cisco Support and Downloads

The Cisco Support and Downloads website provides online resources to download documentation, software, and tools. Use these resources to install and configure the software and to troubleshoot and resolve technical issues with Cisco products and technologies. To receive security and technical information about your products, subscribe to the Product Alert Tool (accessed from Field Notices), the Cisco Technical Services Newsletter, and Really Simple Syndication (RSS) feeds.

Access to most tools on the Cisco Support and Downloads website requires a Cisco.com user ID and password.

For more information:

<http://www.cisco.com/cisco/web/support/index.html>

Submitting a Service Request

Open a service request online at:

<https://tools.cisco.com/ServiceRequestTool/scm/mgmt/case>

Display a list of Cisco worldwide contacts at:

http://www.cisco.com/en/US/support/tsd_cisco_worldwide_contacts.html

Obtaining Additional Information

Information about Cisco products, services, technologies, and networking solutions is available from various online sources.

- Sign up for Cisco email newsletters and other communications at:
<http://www.cisco.com/offer/subscribe>
- Visit the Cisco Services website for the latest technical, advanced, and remote services to increase the operational reliability of your network. Go to:
<http://www.cisco.com/go/services>
- Visit Cisco Marketplace, the company store, for Cisco collateral, logo merchandise, Cisco Press books, and software at:
<http://www.cisco.com/go/marketplace/>
- Obtain general networking, training, and certification titles from Cisco Press publishers at:
<http://www.ciscopress.com>
- *What's New in Cisco Product Documentation* (this document) is an online publication that provides information about the latest documentation releases for Cisco products. This online publication is updated monthly and organized by product category. Go to:
<http://www.cisco.com/c/en/us/td/docs/general/whatsnew/whatsnew.html>
- The Warranty Finder allows you to find warranty information that applies to a specific product or product series/family. To access Cisco Warranty Finder:
<http://www.cisco-warrantyfinder.com>

Cisco and the Cisco logo are trademarks or registered trademarks of Cisco and/or its affiliates in the U.S. and other countries. To view a list of Cisco trademarks, go to this URL: www.cisco.com/go/trademarks. Third-party trademarks mentioned are the property of their respective owners. The use of the word partner does not imply a partnership relationship between Cisco and any other company. (1110R)
