Application Networking Services

New Documents

- **Cisco 4700 Series Application Control Engine Appliance Device Manager GUI Configuration Guide**
  Describes how to use the Device Manager to configure the Cisco 4700 Series Application Control Engine (ACE) appliance, software release A3(2.5).

- **Cisco Application Control Engine (ACE) Configuration Examples**
  Provides feature-specific running-configuration examples for the Cisco Application Control Engine (ACE) module and appliance.

Revised Documents

- **Release Note for Cisco Wide Area Application Services (Software Version 4.1.5x)**
  Describes the new and updated features in WAAS4.1.5d. Also gives details on the upgrading and downgrading procedures, and mentions any resolved and open caveats.

- **Release Note for the Cisco 4700 Series Application Control Engine Appliance (Software Version A3(x.x))**
  Describes the CLI command changes for ACE appliance A3(2.5) and mentions any resolved and open caveats.

Cisco Interfaces and Modules

None at this time.

Cisco IOS and NX-OS Software

None at this time.

Network Management

New Documents

- **Cisco Active Network Abstraction Administrator Guide, 3.7**
  Explains how to administer Cisco ANA 3.7.

- **Cisco Active Network Abstraction Customization User Guide, 3.7**
  Explains how to customize Cisco ANA 3.7 features.

- **Cisco Active Network Abstraction Documentation Guide, 3.7**
  Describes the Cisco ANA 3.7 documentation set.
• **Cisco Active Network Abstraction Installation Guide, 3.7**
  Explains how to install Cisco ANA 3.7.

• **Cisco Active Network Abstraction Integration Developer Guide**
  Describes the Cisco ANA 3.7 APIs.

• **Cisco Active Network Abstraction Reference Guide, 3.7**
  Describes the support provided in Cisco ANA 3.7 for: devices and technologies (and the level of functionality that is supported per technology); events and alarms; traps and syslogs; and command scripts.

• **Cisco Active Network Abstraction Release Notes, 3.7**
  Describes Cisco ANA 3.7 open caveats and caveats resolved from earlier releases.

• **Cisco Active Network Abstraction Theory of Operations Guide, 3.7**
  Describes how Cisco ANA 3.7 works in various network contexts.

• **Cisco Active Network Abstraction User Guide, 3.7**
  Explains how to use Cisco ANA 3.7 product features.

• **Documentation Guide for Cisco Unified Operations Manager 2.3**
  Lists product documentation available.

• **Installation Guide for Cisco Unified Operations Manager 2.3**
  Describes how to install the product.

• **Release Notes for Cisco Unified Operations Manager 2.3**
  Provides late-breaking information and known and resolved product problems for this release.

• **Supported Devices Table for Cisco Unified Operations Manager 2.3**
  Describes devices and software with which Operations Manager works or supports.

• **User Guide for Cisco Unified Operations Manager 2.3**
  Describes how to use the product.

---

**Optical Networking**

The terms “Unidirectional Path Switched Ring” and “UPSR” may appear in Cisco literature. These terms do not refer to using Cisco ONS 15xxx products in a unidirectional-path-switched-ring configuration.

Instead, these terms, and “Path Protected Mesh Network” and “PPMN,” generally refer to Cisco’s Path Protection feature, which may be used in any topological network configuration. Cisco does not recommend using its Path Protection feature in any particular topological network configuration.

---

**Physical Security and Building Systems**

None at this time.
Routers

None at this time.

Security

New Documents

- **Cisco NAC Appliance—Clean Access Manager Configuration Guide, Release 4.7(2)**
  Explains how to configuration of the Clean Access Manager for Cisco NAC Appliance, Release 4.7(2).

- **Cisco NAC Appliance—Clean Access Server Configuration Guide, Release 4.7(2)**
  Explains how to configuration of the Clean Access Server (including DHCP, AD SSO, and VPN concentrator integration) for Cisco NAC Appliance, Release 4.7(2).

- **Cisco NAC Appliance Hardware Installation Guide, Release 4.7(2)**
  Explains how to install the Clean Access Manager and Clean Access Server (including high availability) for Cisco NAC Appliance, Release 4.7(2).

- **Release Notes for Cisco NAC Appliance (Cisco Clean Access), Version 4.7(2)**
  Provides late-breaking and cumulative release, upgrade, and bug fix information for Release 4.7(2).

Revised Documents

- **Cisco NAC Profiler Installation and Configuration Guide, Release 2.1.8**
  Explains how to install and configure the Cisco NAC Profiler components and features available in Release 2.1.8.

- **Cisco NAC Appliance Hardware Installation Quick Start Guide, Release 4.0**
  Explains how to install the Clean Access Manager and Clean Access Server for Cisco NAC Appliance, Release 4.0.

- **Cisco NAC Appliance Hardware Installation Quick Start Guide, Release 4.1**

- **Cisco NAC Appliance Hardware Installation Quick Start Guide, Release 4.5**

- **Support Information for Cisco NAC Appliance Agents, Release 4.5 and Later**
  Provides support and compatibility information (OS, browser, Java) for Cisco NAC Appliance Agents, Release 4.5 and later.

Service Exchange

Universal Gateways and Access Servers

None at this time.

Video, Cable, and Content Delivery

New Documents

- ROMMON Release Notes for Cisco RF Gateway 10
  
  Explains how to download the new ROMMON image from Cisco.com and then upgrade it on the Cisco RF Gateway 10 (RFGW-10) Universal Edge Quadrature Amplitude Modulation (EQAM) platform.

- Configuring the Cisco uBR-MC88V Cable Interface Line Card
  
  Explains how to configure the Cisco uBR-MC88V cable interface line card.

- Cisco uBR-MC88V Cable Interface Line Card Quick Start Guide
  
  Explains how to install the Cisco uBR-MC88V cable interface line card.

Revised Documents

- Cisco uBR7200 Series Cable Interface Line Card Hardware Installation Guide
  
  Explains how to install, remove, and troubleshoot a cable interface line card in a Cisco uBR7200 series universal broadband router.

- Caveats for the Cisco uBR10012 Universal Broadband Router in Cisco IOS Release 12.2SC
  
  Describes the open and closed caveats for Cisco IOS Release 12.2(33)SCD.
- **Cross-Platform Release Notes for Cisco Universal Broadband Routers in Cisco IOS Release 12.2SC**
  Provides a brief summary of the new hardware and software features supported on the Cisco CMTS routers in Cisco IOS Release 12.2(33)SCD.

- **Caveats for the Cisco uBR7200 Series Universal Broadband Routers in Cisco IOS Release 12.2SC**
  Describes the open and closed caveats for Cisco IOS Release 12.2(33)SCD.

---

**Voice and Unified Communications**

**New Documents**

- **Database Setup Guide for Cisco Unified Presence Release 8.0**
  Explains how to configure an external database to store information synchronized from Cisco Unified Presence.

- **Instant Messaging Compliance Guide for Cisco Unified Presence Release 8.0**
  Explains how to configure the Instant Messaging Compliance feature on Cisco Unified Presence.

- **Release Notes for Cisco Unified Presence 8.0**
  Describes the new features, requirements, restrictions, and caveats for Cisco Unified Presence Release 8.0.

**Revised Documents**

- **Cisco PGW 2200 Softswitch Release 9 Provisioning Guide (through Release 9.7)**
  Explains how to provision your Cisco PGW 2200 Softswitch Release 9 through Release 9.7.

- **Cisco PGW 2200 Softswitch Release 9.8 Dial Plan Guide**
  Explains how to create, implement, and deploy dial plans for the Cisco PGW 2200 Softswitch Release 9.8.

- **Cisco PGW 2200 Softswitch Release 9.8 Provisioning Guide**
  Explains how to provision the Cisco PGW 2200 Softswitch Release 9.8 with tools provided with the software.

- **Cisco Unified Operating System Maintenance Guide for Cisco Unified Presence Release 8.0**
  Explains how to use the Cisco Unified Operating System Administration interface, which includes managing security certificates and performing software upgrades on Cisco Unified Presence.

- **Command Line Interface (CLI) Reference Guide for Cisco Unified Presence Release 8.0**
  Lists the CLI commands for Cisco Unified Presence.

- **Deployment Guide for Cisco Unified Presence Release 8.0**
  Explains how to deploy and configure Cisco Unified Presence, Cisco client applications such as Cisco Unified Personal Communicator, and third-party client applications.

- **Disaster Recovery System Administration Guide for Cisco Unified Presence Release 8.0**
  Explains how to use the Disaster Recovery Administration interface. This includes performing backup and restore operations on Cisco Unified Presence.

Creating Bookmarks to Cisco.com Pages

When you log in to Cisco.com, you can use the My Cisco tool to save links and documents. You can then go to the links from any Cisco.com page. The tool is available on most Cisco.com pages. See the User Guide for help: http://www.cisco.com/web/help/mycisco.html.
Support from Cisco

Select from Cisco support opportunities at:

Cisco provides support for:
- Obtaining technical assistance
- Downloading software
- Reporting security vulnerabilities or get assistance with security involving Cisco products
- Accessing tools and resources. You can:
  - Sign up for product alerts
  - Register for field notices
  - Search for known issues using the Bug Toolkit
- Participating in technology discussions with the Networking Professionals (NetPro) community
- Accessing training resources
- Interactively identifying and troubleshooting common hardware, configuration, and performance issues, using the TAC Case Collection tool

Submitting a Service Request

Open a service request online at:
http://www.cisco.com/techsupport/servicerequest

View a list of Cisco worldwide contacts at:

Obtaining Additional Information

Information about Cisco products, services, technologies, and networking solutions is available from various online sources.
- Sign up for Cisco e-mail newsletters and other communications at:
  http://www.cisco.com/offer/subscribe
- Use the Cisco Support website to access online resources, documentation and tools to resolve technical issues with Cisco products. To receive security and technical information about your products, you can subscribe to the Product Alert Tool (accessed from Field Notices), the Cisco Technical Services Newsletter, and Really Simple Syndication (RSS) feeds. You need a Cisco.com user ID and password to access most of the tools on the Cisco Support website.
  http://www.cisco.com/techsupport
- Order the Cisco Product Quick Reference Guide, a portable, easy-to-use reference that provides an overview of Cisco products and solutions for each area of your business. Go to:
Obtaining Additional Information

- Visit the Cisco Services website for the latest technical, advanced, and remote services to increase the operational reliability of your network. Go to:
  http://www.cisco.com/go/services
- Visit Cisco Marketplace, the company store, for Cisco collateral, logo merchandise, Cisco Press books, and software at:
  http://www.cisco.com/go/marketplace/
- Obtain general networking, training, and certification titles from Cisco Press publishers at:
  http://www.ciscopress.com
- Read the Internet Protocol Journal, a quarterly journal published by Cisco for engineering professionals who design, develop, and operate internets and intranets. Go to:
  http://www.cisco.com/ipj
- What’s New in Cisco Product Documentation (this document) is an online publication that provides information about the latest documentation releases for Cisco products. This online publication is updated monthly and organized by product category:
- Product Selector Application (PSA) is available for customers and allows them to select their product or technology. To access Cisco technical documentation, go to the following URL:
  http://www.cisco.com/go/techdocs
- Warranty Finder is now available for finding your warranty information that applies to a specific product or product series/family. To access Cisco Warranty Finder, go to the following URL:
  http://www.cisco-warrantyfinder.com
- Visit the Cisco Data Center Documentation Twitter Feed for daily updates on Cisco NX-OS features and documentation and provide feedback about the documentation. Go to the following URL:
  http://twitter.com/CiscoDCDocs
