What’s New in Cisco Product Documentation

October 2013

What’s New in Cisco Product Documentation lists new and revised Cisco documentation since the last release of this monthly publication. To subscribe to the What’s New in Cisco Product Documentation RSS feed, paste this URL into your RSS reader:

http://www.cisco.com/cdc_content_elements/rss/whats_new/whatsnew_rss_feed.xml

Previous releases of the What’s New in Cisco Product Documentation are available at the following URL:

Cisco Product Documentation Collaboration Tools

Cisco Bug Search

Bug Search Tool (BST), the online successor to Bug Toolkit, is designed to improve our customers’ effectiveness in network risk management and device troubleshooting.

BST allows partners and customers to search for software bugs based on product, release, and keyword, and aggregates key data such as bug details, product, and version. The service has provision to filter bugs based on credentials to provide external and internal bug views for the search input.

Cisco DocWiki

You can collaborate on Cisco documentation using Cisco DocWiki:

http://docwiki.cisco.com
Follow Cisco DocWiki on Facebook and Twitter:

- http://twitter.com/cisco_docwiki

Visit the Cisco IOS Documentation Facebook page or follow Cisco IOS documentation on Twitter for updates on Cisco IOS features and documentation and to provide feedback about the documentation:

- http://twitter.com/Cisco_IOSdocs

Cisco Icon Library

Cisco icons are globally recognized and generally accepted as standard for network icon topologies. Cisco icons are available for download:

http://www.cisco.com/web/about/ac50/ac47/2.html

Cisco International Websites

To find international Cisco websites, go to http://www.cisco.com and click Worldwide at the top of the page.

Cisco Internetworking Terms and Acronyms (ITA)

This resource defines internetworking terms and acronyms specific to Cisco products, technologies, or services. Some terms may also have descriptions unique to Cisco.

The Cisco ITA does not duplicate industry-standard terms for which definitions can be found in other sources. To review this resource:

http://docwiki.cisco.com/wiki/Category:Internetworking_Terms_and_Acronyms_(ITA)

Technical Documentation Ideas Forum

This forum allows you to communicate with other customers and Cisco technical writers. You can share your ideas about Cisco documentation on the Technical Documentation Ideas forum:

http://www.cisco.com/go/techdocideas

Application Networking Services

New Documents

- **Cisco Wide Area Applications Services Command Reference (Software Version 5.3.1)**
  Lists and describes each WAAS CLI command.
- **Cisco Wide Area Application Services Configuration Guide (Software Version 5.3.1)**
  Describes how to configure and use WAAS devices.
• **Open Source Used in WAAS Software Version 5.3.1**
  Lists the open source licenses and notices for the open source software used in WAAS 5.3.1.

• **Release Note for Cisco Wide Area Application Services (Software Version 5.3.1)**
  Describes the new features, resolved and open caveats, CLI command changes, and configuration changes for software version 5.3.1.

## Cisco Interfaces and Modules

### New Documents

• **Cisco Nexus 7000 Series Network Analysis Module (NAM-NX1) Quick Start Guide**
  Describes how to install the Cisco Nexus 7000 Series Network Analysis Module (NAM). It also covers the basic configuration steps.

• **Cisco Nexus 7000 Series Network Analysis Module (NAM-NX1) User Guide**
  Describes how to use the Prime NAM software.

• **Cisco Nexus 7000 Series Network Analysis Module README 6.0(1)**
  Provides late-breaking information and known product problems for this release.

• **Cisco Prime Network Analysis Module Command Reference Guide, 5.1(2)**
  Provides information for understanding and using this software by using the command-line interface (CLI).

• **Open Source Used in Nexus 7000 Series Network Analysis Module 6.0(1)**
  Contains information about licenses for open-source software included in this product. It also contains information about other types of licenses associated with Prime NAM software.

## Cisco IOS and NX-OS Software

### New Documents for Cisco IOS Release 15.1(2)SY

The Cisco IOS documentation set includes configuration guides, command references, release notes, and master command lists. For all new and revised Cisco IOS documentation for Cisco IOS Release 15.1(2)SY, see the following URL:

For a list of the new software and hardware features in Cisco IOS Release 15.1(2)SY, see the release notes:

New Documents

- **Cisco Nexus 7000 Series Network Analysis Module (NAM-NX1) Quick Start Guide**
  Describes how to install the Cisco Nexus 7000 series Network Analysis Module (NAM). It also covers the basic configuration steps.

- **Cisco Nexus 7000 Series Network Analysis Module (NAM-NX1) User Guide**
  Describes how to use the Prime NAM software.

- **Cisco Nexus 7000 Series Network Analysis Module README 6.0(1)**
  Provides late-breaking information and known product problems for this release.

- **Cisco Prime Infrastructure 2.0 Quick Start Guide**
  Describes how to install Cisco Prime Infrastructure 2.0.

- **Cisco Prime Infrastructure 2.0 User Guide**
  Describes how to use Cisco Prime Infrastructure.

- **Cisco Prime Infrastructure Appliance Hardware Installation Guide, Release 2.0**
  Describes how to set up and configure the Cisco Prime Infrastructure 2.0 Appliance.

- **Cisco Prime Infrastructure Classic View Configuration Guide for Wireless Devices, Release 2.0**
  Provides the information you need to manage a Cisco Unified Network Solution using Cisco Prime Infrastructure.

- **Cisco Prime Optical 9.8 Basic External Authentication**
  Describes how Cisco Prime Optical supports basic external authentication.

- **Cisco Prime Optical 9.8 GateWay/CORBA Programmer Reference Guide**
  Describes the northbound Common Object Request Broker Architecture (CORBA) interfaces supported by Cisco Prime Optical. This document serves as a reference for developers of OSS applications that work with the Cisco Prime Optical GateWay/CORBA interface.

- **Cisco Prime Optical 9.8 Installation Guide**
  Explains how to install Cisco Prime Optical and how to upgrade from previous releases.

- **Cisco Prime Optical 9.8 Open Source**
  Contains the licenses and notices for the open source software used in Cisco Prime Optical.

- **Cisco Prime Optical 9.8 Quick Start Guide**
  Provides steps that lead you through a new installation for a single-server setup with an embedded database. The purpose of this guide is to quickly get you up and running with Cisco’s Prime Optical 9.8.

- **Cisco Prime Optical 9.8 Release Notes**
  Describes the caveats for Cisco Prime Optical.

- **Cisco Prime Optical 9.8 Supported Devices**
  Contains compatibility information and lists the Cisco software versions that can be used with a particular Cisco hardware product or module.
• **Cisco Prime Optical 9.8 User Guide**
  Explains how to use Cisco Prime Optical to manage Cisco Optical Networking System (ONS) network elements (NEs) and switches.

• **Cisco Prime Network Analysis Module Command Reference Guide, 6.0(1)**
  Provides information for understanding and using this software by using the command-line interface (CLI).

• **Command Reference Guide for Cisco Prime Infrastructure 2.0**
  Describes how you can configure and maintain the Cisco Prime Infrastructure Release 2.0 using the command-line interface (CLI).

• **NAM Compatibility Matrix**
  Detailed NAM compatibility information for hardware and software.

• **Open Source Used in Nexus 7000 Series Network Analysis Module 6.0(1)**
  Contains information about licenses for the open-source software included in this product. It also contains information about the other types of licenses associated with Prime NAM software.

• **Release Notes for Cisco Prime Infrastructure, Release 2.0**
  Describes the requirements, features, important notes, caveats, and related information for Cisco Prime Infrastructure, Release 2.0.

**Collaboration**

None at this time.

**Optical Networking**

None at this time.

**Physical Security**

None at this time.

**Routers**

**New Documents**

• **Cisco 800 Series Routers Pre-RMA Troubleshooting Guide**
  Describes the troubleshooting procedures to be employed to resolve basic startup issues in the Cisco 800 series Routers before raising a Return Materials Authorization (RMA) request.
Security

Revised Documents

- Release Notes for Cisco Identity Services Engine, Release 1.1.x
  Describes the features, limitations and restrictions (caveats), and related information for Cisco Identity Services Engine, Release 1.1.x.

- User Guide for Cisco Secure Access Control System 5.2
  Describes how to use Cisco Secure Access Control System 5.2. This guide is meant for the security administrators who set up and maintain network and application security by using the Cisco Secure Access Control System.

- User Guide for Cisco Secure Access Control System 5.3
  Describes how to use Cisco Secure Access Control System 5.3. This guide is meant for the security administrators who set up and maintain network and application security by using the Cisco Secure Access Control System.

- User Guide for Cisco Secure Access Control System 5.4
  Describes how to use Cisco Secure Access Control System 5.4. This guide is meant for the security administrators who set up and maintain network and application security by using the Cisco Secure Access Control System.

Switches

New Documents

- Cisco Nexus 7000 Series FPGA/EPLD Upgrade Release Notes, Release 6.2(2)
  Provides release information for the Cisco Nexus 7000 series EPLD upgrades for Release 6.2(2).

- Cisco Nexus 7000 Series NX-OS Release Notes, Release 6.2
  Describes the features, caveats, and limitations for Cisco NX-OS software for use on the Cisco Nexus 7000 series devices.
Revised Documents

- **Cisco Nexus 2000 NX-OS Fabric Extender Software Configuration Guide**
  Describes the Cisco Nexus 2000 series Fabric Extender (FEX) and explains how to configure a FEX using a parent Cisco Nexus 7000 series device.

- **Cisco Nexus 7000 Series NX-OS FabricPath Command Reference**
  Provides command syntax and usage guidelines for FabricPath commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS FabricPath Configuration Guide**
  Describes how to configure Cisco NX-OS FabricPath features on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS FEX Command Reference**
  Provides command syntax and usage guidelines for Fabric Extender (FEX) commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Fundamentals Command Reference**
  Provides command syntax and usage guidelines for fundamental commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Fundamentals Configuration Guide, Release 6.x**
  Provides an overview of the Cisco NX-OS software and describes how to configure basic features on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Interfaces Command Reference**
  Provides command syntax and usage guidelines for interface commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Interfaces Configuration Guide, Release 6.x**
  Describes the interface types supported by the Cisco NX-OS software and explains how to configure Cisco NX-OS software features on the interfaces.

- **Cisco Nexus 7000 Series NX-OS IP SLAs Command Reference**
  Provides command syntax and usage guidelines for IP Service Level Agreements (SLAs) commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS IP SLAs Configuration Guide, Release 6.x**
  Describes Cisco NX-OS IP Service Level Agreements (SLAs) and explains how to configure IP SLAs on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Layer 2 Switching Configuration Guide**
  Provides an overview of the Cisco NX-OS devices that support Layer 2 features and explains how to configure these features.

- **Cisco Nexus 7000 Series NX-OS LISP Command Reference**
  Provides command syntax and usage guidelines for Locator/ID Separation Protocol (LISP) commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS LISP Configuration Guide**
  Describes the Cisco NX-OS Locator/ID Separation Protocol (LISP) and explains how to configure LISP functionality on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS MPLS Command Reference**
  Provides command syntax and usage guidelines for Multiprotocol Label Switching (MPLS) commands on a Cisco NX-OS device.
- **Cisco Nexus 7000 Series NX-OS MPLS Configuration Guide**
  Describes how to configure Cisco NX-OS Multiprotocol Label Switching (MPLS) features on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Multicast Routing Command Reference**
  Provides command syntax and usage guidelines for multicast commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Multicast Routing Configuration Guide**
  Describes the multicast features of Cisco NX-OS and explains how to configure multicast features on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS OTV Command Reference**
  Provides command syntax and usage guidelines for Overlay Transport Virtualization (OTV) commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS OTV Configuration Guide**
  Describes how to configure Cisco NX-OS Overlay Transport Virtualization (OTV) features on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Quality of Service Command Reference**
  Provides command syntax and usage guidelines for quality of service (QoS) commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Quality of Service Configuration Guide, Release 6.x**
  Describes how to configure Cisco NX-OS quality of service (QoS) features on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS SAN Switching Configuration Guide**
  Describes how to configure Cisco NX-OS SAN switching features on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Security Command Reference**
  Provides command syntax and usage guidelines for security commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Security Configuration Guide, Release 6.x**
  Describes how to configure Cisco NX-OS security features on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Software Upgrade and Downgrade Guide, Release 6.x**
  Describes how to upgrade or downgrade the Cisco NX-OS software.

- **Cisco Nexus 7000 Series NX-OS System Management Command Reference**
  Provides command syntax and usage guidelines for system management commands on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS System Management Configuration Guide, Release 6.x**
  Describes how to configure Cisco NX-OS system management features on a Cisco NX-OS device.

- **Cisco Nexus 7000 Series NX-OS Troubleshooting Guide**
  Provides guidance for troubleshooting issues that may appear when using Cisco Nexus 7000 series devices.

- **Cisco Nexus 7000 Series NX-OS Unicast Routing Configuration Guide, Release 6.x**
  Describes how to configure unicast routing protocols and first-hop redundancy protocols on the Cisco Nexus 7000 series devices running Cisco NX-OS 6.x releases.

- **Cisco Nexus 7000 Series NX-OS Verified Scalability Guide**
  Describes the Cisco NX-OS configuration limits for the Cisco Nexus 7000 series devices.
TelePresence

New Documents

- **AVC License Notice from MpegLA**
  Contains information on the AVC license from MpegLA.

- **Cisco Ceiling Mic Audio Science Guide d’installation**
  Describes how to install the Cisco Ceiling Mic Audio Science. Content: Introduction; Box contents; Installation considerations; Other ceiling arrangements; Mounting considerations: Installation. In French.

- **Cisco TelePresence Management Suite Extension for Microsoft Exchange Administrator Guide (3.1.2)**
  Describes the maintenance and operation of Cisco TMSXE.

- **Cisco TelePresence Management Suite Extension for Microsoft Exchange Installation Guide (3.1.2)**
  Describes the installation, upgrade, and initial configuration procedures for Cisco TMSXE.

- **Cisco TelePresence Management Suite Extension for Microsoft Exchange Release Notes (3.1.2)**
  Describes new features, resolved issues, and any open issues and limitations in the latest release of Cisco TMSXE.
• **Replacing MCU Software with TelePresence Server Software on Cisco TelePresence MCU 5300 Series**
  Describes the process of replacing the software on an MCU device, so that it runs the TelePresence Server application instead.

### Revised Documents

- **Cisco Ceiling Mic Audio Science Installation Guide**
  Describes how to install the Cisco Ceiling Mic Audio Science. Content: Introduction; Box contents; Installation considerations; Other ceiling arrangements; Mounting considerations: Installation.

- **Cisco TelePresence Endpoints Knowledge Base Articles**
  Contains several short knowledge base articles related to the Cisco TelePresence products. Products included in this guide: C series codecs, EX60, EX90, MX200, MX300, SX20 Quick Set.

- **Cisco TelePresence Management Suite Analytics Extension Installation Guide (1.2)**
  Describes the installation and upgrade procedure for Cisco TMSAE. Requirements revised to reflect the releases of Cisco TMS 14.3 and Cisco TMSAE 1.2.1.

- **Cisco TelePresence Management Suite Analytics Extension Release Notes (1.2)**
  Describes new features, resolved issues, and any open issues and limitations in Cisco TMSAE. Requirements revised to reflect the releases of Cisco TMS 14.3 and Cisco TMSAE 1.2.1.

- **Cisco TelePresence Management Suite Extension for Microsoft Exchange User Guide (3.1)**
  Describes how to book TelePresence meetings using Outlook with Cisco TMSXE.

- **Cisco TelePresence PrecisionHD 1080p-720p Camera User Guide**
  Describes the information needed to install and use the PrecisionHD 1080p cameras. Some information about the PrecisionHD 720p camera is also included.

### Universal Gateways and Access Servers

None at this time.

### Video

None at this time.

### Voice and Unified Communications

#### New Documents

- **Cisco Unified Communications Manager Device Package 8.6(2) (24094-1) Release Notes**
  Cisco Unified Communications Manager Device Package Release 8.6(2) includes feature upgrades for:
  - Cisco Unified Wireless IP Phone 7921G, 7925G, 7925G-EX, and 7926G
  - Cisco Unified IP Phone 8941 and 8945
  - Cisco Unified IP Phone 8961, 9951, and 9971
Cisco Unified Communications Manager Device Package Release 8.6(2) is a prerequisite to deploying the 9.3(3)SR1 firmware release for the Cisco Unified IP Phone 6921, 6941, 6945, and 6961 (SCCP). The 9.3(3)SR1 release introduces the “Secure by Default” feature, and if the device package is not installed first, the phone will be unstable.

**Cisco Unified Communications Manager Device Package 8.6(2) (24097-1) Release Notes**

Cisco Unified Communications Manager Device Package Release 8.6(2) includes support for the following features on TelePresence phones:

- Extension Mobility
- IP Phone Services
- User Localization

The new features are supported on the following Telepresence phones:

- Cisco TelePresence EX60
- Cisco TelePresence EX90
- Cisco TelePresence Quick Set C20
- Cisco TelePresence Codec C40
- Cisco TelePresence Codec C60
- Cisco TelePresence Codec C90
- Cisco TelePresence SX20
- Cisco TelePresence MX200
- Cisco TelePresence MX300
- Cisco TelePresence Profile 42 (C20)
- Cisco TelePresence Profile 42 (C40)
- Cisco TelePresence Profile 42 (C60)
- Cisco TelePresence Profile 52 (C40)
- Cisco TelePresence Profile 52 (C60)
- Cisco TelePresence Profile 52 Dual (C60)

**Cisco Unified Communications Manager Device Package 8.5(1) (16109-1) Release Notes**

Cisco Unified Communications Manager Device Package Release 8.5(1) includes feature upgrades for:

- Cisco Unified Wireless IP Phone 7921G, 7925G, 7925G-EX, and 7926G
- Cisco Unified IP Phone 8941 and 8945
- Cisco Unified IP Phone 8961, 9951, and 9971

Cisco Unified Communications Manager Device Package Release 8.5(1) is a prerequisite to deploying the 9.3(3)SR1 firmware release for the Cisco Unified IP Phone 6921, 6941, 6945, and 6961 (SCCP). The 9.3(3)SR1 release introduces the “Secure by Default” feature, and if the device package is not installed first, the phone will be unstable.

**Cisco Unified Communications Manager Device Package 9.1(2) (11003-1) Release Notes**

Cisco Unified Communications Manager Device Package Release 9.1(2) introduces the Cisco Unified IP Conference Phone 8831.

This release also includes feature upgrades for:

- Cisco Unified Wireless IP Phone 7921G, 7925G, 7925G-EX, and 7926G
Cisco Unified Communications Manager Device Package Release 9.1(2) is a prerequisite to deploying the 9.3(3)SR1 firmware release for the Cisco Unified IP Phone 6921, 6941, 6945, and 6961 (SCCP). The 9.3(3)SR1 release introduces the “Secure by Default” feature, and if the device package is not installed first, the phone will be unstable.

- **Cisco Unified Communications Manager Device Package 9.1(2) (11006-1) Release Notes**

Cisco Unified Communications Manager Device Package Release 9.1(2) includes support for the following features on TelePresence phones:

- Extension Mobility
- IP Phone Services
- User Localization

The new features are supported on the following Telepresence phones:

- Cisco TelePresence EX60
- Cisco TelePresence EX90
- Cisco TelePresence Quick Set C20
- Cisco TelePresence Codec C40
- Cisco TelePresence Codec C60
- Cisco TelePresence Codec C90
- Cisco TelePresence SX20
- Cisco TelePresence MX200
- Cisco TelePresence MX300
- Cisco TelePresence Profile 42 (C20)
- Cisco TelePresence Profile 42 (C40)
- Cisco TelePresence Profile 42 (C60)
- Cisco TelePresence Profile 52 (C40)
- Cisco TelePresence Profile 52 (C60)
- Cisco TelePresence Profile 52 Dual (C60)

Creating Bookmarks to Cisco.com Pages

After you log in to Cisco.com, you can use the My Cisco tool to save links and documents. You can then go to the links from any Cisco.com page. The tool is available on most Cisco.com pages. See the My Cisco User Guide for help:

http://www.cisco.com/web/help/mycisco.html

Cisco Support and Downloads

The Cisco Support and Downloads website provides online resources to download documentation, software, and tools. Use these resources to install and configure the software and to troubleshoot and resolve technical issues with Cisco products and technologies. To receive security and technical information about your products, subscribe to the Product Alert Tool (accessed from Field Notices), the Cisco Technical Services Newsletter, and Really Simple Syndication (RSS) feeds.

Access to most tools on the Cisco Support and Downloads website requires a Cisco.com user ID and password.

For more information:

Submitting a Service Request

Open a service request online at:

http://www.cisco.com/techsupport/servicerequest

Display a list of Cisco worldwide contacts at:

Obtaining Additional Information

Information about Cisco products, services, technologies, and networking solutions is available from various online sources.

- Sign up for Cisco email newsletters and other communications at:
  
  http://www.cisco.com/offer/subscribe

- Order the Cisco Product Quick Reference Guide, a portable, easy-to-use reference that provides an overview of Cisco products and solutions for each area of your business. Go to:

- Visit the Cisco Services website for the latest technical, advanced, and remote services to increase the operational reliability of your network. Go to:

  http://www.cisco.com/go/services

- Visit Cisco Marketplace, the company store, for Cisco collateral, logo merchandise, Cisco Press books, and software at:

  http://www.cisco.com/go/marketplace/
Obtaining Additional Information

- Obtain general networking, training, and certification titles from Cisco Press publishers at:
  http://www.ciscopress.com
- Read the Internet Protocol Journal, a quarterly journal published by Cisco for engineering professionals who design, develop, and operate internets and intranets. Go to:
  http://www.cisco.com/ipj
- What’s New in Cisco Product Documentation (this document) is an online publication that provides information about the latest documentation releases for Cisco products. This online publication is updated monthly and organized by product category. Go to:
- The Warranty Finder allows you to find warranty information that applies to a specific product or product series/family. To access Cisco Warranty Finder:
  http://www.cisco-warrantyfinder.com
- Visit the Cisco Data Center Documentation Twitter Feed for daily updates on Cisco NX-OS features and documentation and provide feedback about the documentation.
  http://twitter.com/CiscoDCDocs
