Preface

Overview

This document contains information about the command line interface (CLI) commands that you can use with the Cisco IP Interoperability and Collaboration System (hereafter referred to as Cisco IPICS) Push-to-Talk Management Center (hereafter referred to as PMC). It explains how to use the CLI and describes each supported CLI command in detail.

This section describes the intended audience and organization of this Cisco IPICS PMC Command Line Interface documentation and includes the following topics:

- Audience, page v
- Organization, page vi
- Related Documentation, page vi
- Document Notes and Conventions, page x
- Obtaining Documentation, Obtaining Support, and Security Guidelines, page xi

Audience

This document is intended for system administrators who are responsible for the PMC clients in a Cisco IPICS deployment. It assumes that you are familiar with the PMC features and functions and that you are familiar with Windows batch files and environment variables.
Organization

This document is organized in the following manner:

<table>
<thead>
<tr>
<th>Chapter 1, “Using the PMC Command Line Interface”</th>
<th>This chapter provides an overview of how to use the CLI commands, including how to issue commands and how to use batch files.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chapter 2, “Command Line Interface Commands”</td>
<td>This chapter describes each of the PMC CLI commands in detail.</td>
</tr>
</tbody>
</table>

Related Documentation

For more information about Cisco IPICS and the PMC application, refer to the following documentation:

- *Cisco IPICS PMC Installation and User Guide, Release 2.1(1)*—This document describes how to install, configure, manage, and operate the Cisco IPICS PMC application.

- *Cisco IPICS PMC Quick Start Reference Card, Release 2.1(1)*—This document provides tips and quick references for the most frequently used procedures that a user can perform on the Cisco IPICS PMC.

- *Cisco IPICS PMC Debug Reference Quick Start Card, Release 2.1(1)*—This document provides a quick reference for troubleshooting and debugging the Cisco IPICS PMC.

- *Cisco IPICS Server Administration Guide, Release 2.1(1)*—This document contains information about the key configuration, operation, and management tasks for the Cisco IPICS server.

- *Cisco IPICS Server Quick Start Guide, Release 2.1(1)*—This document is a condensed version of the *Cisco IPICS Server Administration Guide* to help the administrator to quickly get started with Cisco IPICS.

- *Cisco IPICS Server Quick Start Reference Card, Release 2.1(1)*—This document provides tips, quick references, and usage guidelines for the Cisco IPICS server.
• Using Cisco IPICS on Your IP Phone Quick Start Reference Card, Release 2.1(1)—This document contains information about accessing Cisco IPICS from your IP phone and tips and guidelines for using this service.

• Using the Cisco IPICS TUI Quick Start Reference Card, Release 2.1(1)—This document describes the steps that you follow to dial into, or receive a call from, the policy engine telephony user interface (TUI) and guidelines for using the system.

• Cisco IPICS Radio and Tone Descriptor File Examples Reference Card, Release 2.1(1)—This document contains examples of valid and invalid radio control and signaling descriptor file entries and guidelines for creating these entries.

• Cisco IPICS Server Installation and Upgrade Guide, Release 2.1(1)—This document describes how to install, configure, and upgrade the Cisco IPICS server software and Cisco IPICS operating system.

• Cisco IPICS Server Quick Start Installation Reference Card, Release 2.1(1)—This document provides tips and quick references for installing and upgrading the Cisco IPICS server.

• Cisco IPICS Troubleshooting Guide, Release 2.1(1)—This document contains reference material about how to maintain and troubleshoot the Cisco IPICS system.

• Release Notes for Cisco IPICS Release 2.1(1)—This document contains a description of the new and changed features, important notes, caveats, and documentation updates for this release of Cisco IPICS.

• Cisco IPICS 2.1(1) Resources Card (Documentation Locator)—This document provides a summary of the documentation that is available for this release of Cisco IPICS.

• Solution Reference Network Design (SRND) for Cisco IPICS Release 2.1(1)—This document provides information about design considerations and guidelines for deploying the Cisco IPICS solution.

• Cisco IPICS Compatibility Matrix—This document contains information about compatible hardware and software that is supported for use with Cisco IPICS.

To access the documentation suite for Cisco IPICS, refer to the following URL:

Cisco Unified Communications Manager (CallManager) Documentation

For information about Cisco Unified Communications Manager (CallManager), refer to the documentation at this URL:

Cisco Unified Communications Manager Express Documentation

For information about Cisco Unified Communications Manager Express, refer to the documentation at this URL:

Cisco 7800 Series Media Convergence Servers Documentation

For information about Cisco 7800 Series Media Convergence Servers, refer to the MCS data sheets at this URL:

Cisco Unified IP Phones 7900 Series Documentation

For information about Cisco Unified IP Phones, refer to the documentation at this URL:

Session Initiation Protocol Documentation

The dial engine, which controls the dial-in and dial-out functionality of the policy engine, uses the Session Initiation Protocol (SIP). For information about SIP, refer to the documentation at this URL:

Cisco Land Mobile Radio over IP/Solution Reference Network Design

For information about Cisco Land Mobile Radio (LMR) over IP, refer to the documentation at the following URLs:

Cisco Security Agent

For information about Cisco Security Agent, refer to the documentation at this URL:

Cisco IOS Documentation

The Cisco IOS software documentation set describes the tasks and commands necessary to configure certain system components and other Cisco products, such as access servers, routers, and switches. Each configuration guide can be used in conjunction with its corresponding command reference.

For information about Cisco IOS software configuration, refer to the documentation at this URL:
Document Notes and Conventions

This document uses the following conventions for instructions and information:

---

**Note**

Means *reader take note*. Notes contain helpful suggestions or references to materials not contained in this manual.

---

**Caution**

This caution symbol means *reader be careful*. In this situation, you might do something that could result in equipment damage or loss of data.

---

### Table 1 Conventions

<table>
<thead>
<tr>
<th>Convention</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>boldface font</strong></td>
<td>Commands and keywords appear in <strong>boldface</strong>.</td>
</tr>
<tr>
<td><strong>italic font</strong></td>
<td>Command input for which you supply the values appear in <em>italics</em>.</td>
</tr>
<tr>
<td>[ ]</td>
<td>Optional keywords and default responses to system prompts appear within square brackets.</td>
</tr>
<tr>
<td>{x</td>
<td>x</td>
</tr>
<tr>
<td>string</td>
<td>A nonquoted set of characters. Do not use quotation marks around the string or the string will include the quotation marks.</td>
</tr>
<tr>
<td>^ or Ctrl</td>
<td>Represent the key labeled Control. For example, when you read ^D or Ctrl-D, you should hold down the Control key while you press the D key.</td>
</tr>
<tr>
<td>screen font</td>
<td>Examples of information displayed on the screen.</td>
</tr>
</tbody>
</table>
Table 1  Conventions (continued)

<table>
<thead>
<tr>
<th>Convention</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>boldface screen font</strong></td>
<td>Information that you must enter is in <strong>boldface screen font</strong>.</td>
</tr>
<tr>
<td><em>italic screen font</em></td>
<td>Arguments for which you supply values are in <em>italic screen font</em>.</td>
</tr>
</tbody>
</table>

Obtaining Documentation, Obtaining Support, and Security Guidelines

For information on obtaining documentation, obtaining support, providing documentation feedback, security guidelines, and also recommended aliases and general Cisco documents, see the monthly What's New in Cisco Product Documentation, which also lists all new and revised Cisco technical documentation, at:
