

## Feature History

---

The following table lists the new and modified features supported in the High Availability Configuration Guide on Cisco IOS XE 17.

Feature	Description
<b>Cisco IOS XE Bengaluru 17.6.1</b>	
Secure eUSB Configuration	Use the <b>platform secure-cfg</b> command to provide enhanced security to the routers.
<b>Cisco IOS XE Bengaluru 17.4.1</b>	
Secondary ROMMON Partition Auto Upgrade	This feature supports secondary ROMMON partition auto upgrade after a successful primary ROMMON partition is complete.
<b>Cisco IOS XE Amsterdam 17.3.1</b>	
Fast Booting the RSP3 .bin Image	A new command <b>platform fastboot</b> is introduced on the RSP3 module. When enabled on the RSP3 module that is pre-booted with .bin image, on the next reboot, the ROMMON boots up with the corresponding packages.conf image. Boot up from the packages.conf image is much faster and thus, the boot time is reduced approximately by six to eight minutes.
