New and Changed System Setup Features

Feature	Description	Changed in Release
View Supported Software Upgrade or Downgrade Versions	<p>You can determine whether a software version can be upgraded or downgraded to another version using this functionality. Before an actual upgrade or downgrade process, you can also view the hardware or software limitations that could cause the upgrade or downgrade to fail. This feature helps you plan successful software upgrades or downgrades.</p> <p>This feature introduces the show install upgrade-matrix command.</p>	Release 7.5.1
Check Integrity of Golden ISO (GISO) Files	This feature provides an option to verify the integrity of files in GISO using md5sum value.	Release 7.5.1
