New and Changed MPLS Features

This table summarizes the new and changed feature information for the *MPLS Configuration Guide for Cisco NCS 5500 Series Routers*, and tells you where they are documented.

New and Changed MPLS Feature Information

Table 1: New and Changed Features

Feature	Description	Changed in Release	Where Documented
Autoroute Tunnel as Designated Path	With this feature, you can exclusively specify an autoroute tunnel to forward traffic to a particular tunnel destination address without considering the IS-IS metric for traffic path selection.	Release 7.6.2	Configure Autoroute Tunnel as Designated Path
