New and Changed Feature Information

This table summarizes the new and changed feature information for the *Netflow Configuration Guide for Cisco NCS 5500 Series Routers*, and tells you where they are documented.

New and Changed Information

Table 1: New and Changed Features

Feature	Description	Changed in Release	Where Documented
Flow Filter on Cisco NC57 Line Cards	With this feature, you can collect user-defined and ACL-filtered NetFlow data that is available in the NetFlow cache and export it to an external interface for processing. Flow filter can be configured on interfaces in ingress direction.	Release 7.2.2	*Configuring NetFlow*
