

Preface

Work Centers in LMS provide complete lifecycle management of Identity, EnergyWise, Medianet, Auto Smart Ports, and Smart Install from Day 1 to Day N operations in a workflow-oriented approach. The workflow includes readiness assessment, configuration, monitoring, and reporting.

This preface details related documents that support Work Centers feature, and demonstrates the styles and conventions used in this guide. The preface contains the following sections:

- [Audience](#)
- [Document Conventions](#)
- [Product Documentation](#)

Audience

This guide is for users who are skilled in network administration and management, and for network operators who can use this guide to make configuration changes to devices, using LMS. The network administrator or the operator should be familiar with the following:

- Basic Network Administration and Management
- Basic Solaris System Administration
- Basic Soft Appliance System Administration
- Basic Windows System Administration
- Basic LMS Administration

Document Conventions

Table 1 describes the conventions followed in the user guide.
