

Preface

Administration in Cisco Prime LAN Management Solution (LMS) 4.2 groups all the activities and tasks that a user with Network or System Administrator privileges needs to perform.

This preface details the related documents that support the Admin feature, and demonstrates the styles and conventions used in this guide. This preface contains:

- [Audience](#)
- [Document Conventions](#)
- [Product Documentation](#)

Audience

This guide is for users who are skilled in network administration and management, and for network operators who use this guide to make configuration changes of devices using LMS. The network administrator or operator should be familiar with the following:

- Basic Network Administration and Management
- Basic Solaris System Administration
- Basic Windows System Administration
- Basic Soft Appliance System Administration
- Basic LMS Administration

Document Conventions

[Table 1](#) describes the conventions followed in the user guide.

Table 1 **Conventions Used**

Item	Convention
Commands and keywords	boldface font
Variables for which you supply values	<i>italic font</i>
Displayed session and system information	screen font
Information you enter	boldface screen font

Table 1 **Conventions Used (continued)**

Item	Convention
Variables you enter	<i>italic screen font</i>
Menu items and button names	boldface font
Selecting a menu item in paragraphs	Option > Network Preferences
Selecting a menu item in tables	Option > Network Preferences

Note

Means *reader take note*. Notes contain helpful suggestions or references to material not covered in the publication.

Product Documentation

Note

We sometimes update the printed and electronic documentation after original publication. Therefore, you should also review the documentation on Cisco.com for any updates.

Table 2 describes the product documentation that is available.
