

# Uninstalling Prime Service Catalog

---

- [Removing Virtual Appliance, page 1](#)

## Removing Virtual Appliance

---

- Step 1** Login to vSphere Client and connect to your VMware vCenter Server.
- Step 2** Right-click the Prime Service Catalog Virtual Appliance, go to **Power > Shut Down Guest** (or choose Power Off).
- Step 3** Right-click the Prime Service Catalog Virtual Appliance, select **Delete from Disk** option to remove the VM. The Prime Service Catalog Virtual Appliance is removed.
