

## Preface

---

This guide describes how you can configure and maintain the Cisco Evolved Programmable Network Manager (EPNM) using the command-line interface (CLI). Each topic provides a high-level summary of the tasks required for using CLI for EPNM that runs on supported appliances for small, medium, and large Cisco EPNM deployments.

- [Who Should Read This Guide, on page i](#)
- [How to Use This Guide, on page i](#)
- [How This Guide Is Organized, on page ii](#)
- [Document Conventions, on page ii](#)
- [Related Documentation, on page iii](#)
- [Obtaining Documentation and Submitting a Service Request, on page iii](#)

## Who Should Read This Guide

Most of the instructions given in this guide are straightforward; however, a few are complex. Therefore, only experienced users should use these instructions.

---

**Note** Use this guide in conjunction with the documentation listed in [Related Documentation, on page iii](#).

---

## How to Use This Guide

We recommend that you use the information in this guide as follows:

- Read the document in its entirety. Subsequent sections build on information and recommendations discussed in previous sections.
- Use this document for all-inclusive information about the Cisco EPNM appliance.
- Do not vary the command-line conventions.

# How This Guide Is Organized

The following table lists the major sections of this guide.

Chapter	Title	Description
<a href="#">Chapter 1</a>	Overview of the Cisco EPNM Command-Line Interface	Provides an overview of the EPNM CLI environment and command modes.
<a href="#">Chapter 2</a>	Using the Cisco EPNM Command-Line Interface	Describes how you can access and administer EPNM using the CLI.

## Document Conventions

This guide uses the following conventions to convey instructions and information.

Convention	Description
<b>bold font</b>	Commands and keywords.
<i>italic font</i>	Variables for which you supply values.
[.....]	Keywords or arguments that appear within square brackets are optional.
{x   y   z}	A choice of required keywords appears in braces separated by vertical bars. You must select one.
<code>courier font</code>	Examples of information displayed on the screen.
<b>bold courier font</b>	Examples of information you must enter.
<.....>	Nonprinting characters (for example, passwords) appear in angle brackets.
[...]	Default responses to system prompts appear in square brackets.

---

**Note** Notes contain helpful suggestions or references to material not covered in the manual.

---

---

**Tip** Suggests the following information will help you solve a problem.

---

---

**Caution** Provides critical information. In this situation, you might perform an action that could result in equipment damage or loss of data.

---

## Related Documentation

The table lists the Cisco EPNM documents.
