Document	Description
Cisco Managed Services Accelerator (MSX) 4.0 Release Notes	This documentation provides information about the new features in Cisco Managed Services Accelerator (MSX) 4.0.
Cisco Managed Services Accelerator (MSX) 4.0 Administration	This documentation covers the post-install configuration information that is required to set up MSX.
Cisco Managed Services Accelerator (MSX) 4.0 Platform and Service Pack Permissions Addendum	This addendum covers all the permissions that are required to operate MSX and the service packs.
Cisco Managed Services Accelerator (MSX) 4.0 SD-WAN	This documentation includes details that are related to deploying, managing, configuring the Cisco MSX SD-WAN service pack, and troubleshooting service errors.
Cisco Managed Services Accelerator (MSX) 4.0 SD-WAN and Meraki Out-of-the-Box Applications Addendum	This document is an addendum to the <i>Cisco MSX SD-WAN Service Pack</i> content. It has details about the out-of-the-box applications of MSX 4.0 and the comparison of applications in MSX 3.10 with applications in MSX 4.0 based on possible application mapping.
Cisco Managed Services Accelerator (MSX) 4.0 Enterprise Access	This documentation includes details that are related to deploying, managing, configuring the Cisco MSX Enterprise Access service pack, and troubleshooting service errors.
Cisco Managed Services Accelerator (MSX) Solution Overview	This documentation provides a comprehensive explanation of the design of the MSX solution that enables service providers to offer flexible and extensible services to their business customers.

Document	Description
Open Source Used in Cisco MSX and Service Packs	This documentation contains licenses and notices for Open Source software that is used in this product.

Bias-free Doc Disclaimer

Note The documentation set for this product strives to use bias-free language. For purposes of this documentation set, bias-free is defined as language that does not imply discrimination based on age, disability, gender, racial identity, ethnic identity, sexual orientation, socioeconomic status, and intersectionality. Exceptions may be present in the documentation due to language that is hardcoded in the user interfaces of the product software, language used based on RFP documentation, or language that is used by a referenced third-party product.
