

Preface

Welcome to the *Cisco Prime Cable Provisioning 6.1.1 User Guide*. This guide describes concepts and configurations related to Cisco Prime Cable Provisioning.

Note For a complete understanding of the product, use this guide along with the documentation listed in [Product Documentation](#), on page i.

- [Audience](#), on page i
- [Product Documentation](#), on page i
- [Obtaining Documentation and Submitting a Service Request](#), on page ii

Audience

System administrators use this guide to configure Prime Cable Provisioning for automating large-scale provisioning for broadband access. The administrator should be familiar with:

- Basic networking concepts and terminology
- Network administration
- Cable networks

Product Documentation

Note We sometimes update the printed and electronic documentation after original publication. Therefore, you should also review the documentation on [Cisco.com](#) for any updates.

See the [Cisco Prime Cable Provisioning 6.1.1 Documentation Overview](#) for the list of Prime Cable Provisioning guides.

Related Documentation

See the [Cisco Prime Network Registrar Documentation Overview](#) for the list of Cisco Prime Network Registrar guides.

See the [Prime Cable Provisioning Compatibility Matrix](#) for the compatibility of Prime Cable Provisioning 6.1.1 with the previous releases.

See the [Prime Cable Provisioning and Prime Network Registrar Compatibility Matrix](#) for the compatibility of Prime Cable Provisioning 6.1.1 with Prime Network Registrar.

Obtaining Documentation and Submitting a Service Request

For information on obtaining documentation, using the Cisco Bug Search Tool (BST), submitting a service request, and gathering additional information, see [What's New in Cisco Product Documentation](#).

To receive new and revised Cisco technical content directly to your desktop, you can subscribe to the [What's New in Cisco Product Documentation RSS feed](#). RSS feeds are a free service.
