Uninstall Cisco Prime Collaboration Assurance

• Uninstall Cisco Prime Collaboration Assurance, on page 1

Uninstall Cisco Prime Collaboration Assurance

Note Before you uninstall, ensure that you delete all the node-to-node tests from the application. If you do not delete these tests, they continue to run on the router Infrastructure.

Step 1 Log in to the vSphere Client and connect to the ESXi server that is running the virtual appliance that you want to uninstall.

Step 2 Right-click the application, choose **Power > Shut Down Guest** (or choose **Power Off**).

Step 3 Right-click the application and in the **Confirm Delete** window, choose **Delete from disk**.

Uninstall Cisco Prime Collaboration Assurance
