

Overview

This guide describes both the System UI and the Statistics UI, as well as other system-related tasks.

- **Statistics UI**—Enables you to monitor processes (services), logged events, and diagnostics for either a single-system deployment or for a distributed (high-availability) one using multiple servers.
 - **Services and Statistics**—Describes the services, as well as how to start and stop them. Describes the Process Status, Event Logs, and Platform Diagnostics UIs and how to use them.
- **System UI**—Enables you to manage configurations that apply to accessing and using the web UI. These configurations (and thus, the corresponding documentation) are only for the local server.
 - **Licenses**—Describes how to install local licenses, and view relevant information, such as their licensed features and expiration dates.
 - **User Management**—Describes how to add, edit, activate/de-activate, and delete users and their roles from the local user database.
 - **LDAP Configuration**—Describes how to configure access to the LDAP server for user authentication, and configure mappings between LDAP groups and local system roles.
 - **SMTP Server**—Describes how to configure access to the local SMTP server used for emailing WAE Live reports.
 - **Log Settings**—Describes how to configure aggregation of all syslog messages to a syslog server.
 - **Local Server Status**—Describes the status information about the local device: system load, memory, and disk space.
- **Applications**—Describes how to install applications in the WAE UI.
- **Additional Administrative Tasks**—Describes additional administrative tasks that are not done using the WAE UI.
- **Troubleshooting**—Offers a few tips on troubleshooting WAE products.

Bookmarks

Add Bookmarks

You can set bookmarks for any page in the UI.

-
- Step 1** Go to the page you want to bookmark.
- Step 2** Click the bookmark icon.
- Step 3** Click **Bookmark This Page**.
-

Manage Bookmarks

-
- Step 1** Click the bookmark icon.
- Step 2** Click **Bookmark Manager**.
- To edit a bookmark, hover over the bookmark name and click it, or click the **Edit** (pencil) icon. Change the Caption or URL as needed, and click **Update**.
 - To delete a bookmark, click the associated **Delete** icon and then click **OK** to confirm.
- Step 3** Click **Save**.
-

Add System-Wide Bookmarks

If you have an admin role, you can set bookmarks for all users of the local server.

-
- Step 1** Go to the page you want to bookmark.
- Step 2** Click the bookmark icon.
- Step 3** Click **Bookmark This Page**.
- Step 4** Select **System bookmark** and click **Save**.
-
