

CHAPTER 1

Overview	1-1
Installer	1-1
RPM Packages	1-2
Current Links	1-3
Versions	1-3
Environment Variables	1-4

CHAPTER 2

Collector Server Upgrades	2-1
File Migration	2-1
Database Upgrades	2-1

CHAPTER 3

Before You Begin	3-1
Prerequisites	3-1
Change Default wae-web-server Parameters	3-2
Verifying Code Signing	3-3
Verifying Code Signing for Mac Software	3-3
Verifying Code Signing for Linux Software	3-3

CHAPTER 4

Offline Installation	4-1
Prerequisites	4-1
Offline Installation	4-1

CHAPTER 5

WAE Planning Software Installation	5-1
---	------------

CHAPTER 6

Distributed Server Installation	6-1
Before You Begin	6-1

CHAPTER 7

Post Installation	7-1
Configurations	7-2
Log In to the Web UI	7-3

CHAPTER 8

License Installation 8-1

- License Location Restrictions 8-1
- WAE Design Licenses 8-2
 - Install License from WAE Design GUI 8-2
 - Borrow and Return Floating Licenses 8-3
- Install License from CLI 8-4
- Install License from Web UI 8-5

CHAPTER 9

WAE Design Floating License Server 9-1

- Prerequisites 9-1
- Best Practices 9-1
- Pre-Installation 9-2
- Install License Server 9-3
- Configure License Server Ports 9-3
- Start License Server 9-4
 - CLI 9-4
 - Web UI 9-4
- Post-Installation 9-5
 - Log Files 9-5
 - Port Verification 9-5
 - Distribute Information to Clients 9-6
 - Set Up Access Control List for Web Server 9-6
 - Configure Borrowing Parameters 9-7
 - Verify Licenses in Use 9-7
 - Reclaim Unused Licenses 9-8

CHAPTER 10

Cisco WAE Live Data Store 10-1

- Installing the mld Server 10-2
- Upgrading the Data Store to a New Server 10-4
- Upgrading the Data Store 10-4
- Starting and Restarting the mld Server 10-5
- Stopping the mld Server and Getting Current Status 10-5
- Backing Up the Data Store 10-5
 - Best Practices 10-6
 - Backup Steps 10-6
 - Additional Backups 10-7

Restoring the Data Store	10-8
Prerequisites	10-8
Restoration Steps	10-9
