# Uninstall Cisco WAE

## Uninstall Cisco WAE

This procedure describes how to remove a Cisco WAE installation.

**Note**    You can have more than one instance of Cisco WAE installed. When going through the uninstallation procedure, make sure you are removing the correct Cisco WAE installation and run-time directories.

**Step 1**    From the Cisco WAE run-time directory, stop Cisco WAE services.

```
# wae --stop
```

**Step 2**    Navigate to the parent directory and remove the Cisco WAE installation and run-time directories.

```
# rm -rf <wae_installation_directory>
# rm -rf <wae_run_time_directory>
```

**Example**

For example:

```
# wae --stop
# cd
# rm -rf waeinstall
# rm -rf waerun
```
