Additional Modem Support for Cellular Pluggable Modules

Cisco IOS-XE Release 17.14.1 enhances connectivity options and throughput on the IR1101 and IR1800 platforms by supporting additional cellular modems:

- CAT 7 Modems:
 - P-LTEA7-NA
 - P-LTEA7-EAL
 - P-LTEA7-JP
- 5G Modem:
 - P-5GS6-R16SA-GL

Note CAT 7 modems support GNSS and NMEA streaming, while currently P-5GS6-R16SA-GL module does not support GPS and NMEA streaming.
