New and Changed Feature Information

This table summarizes the new and changed feature information for the *System Setup and Software Installation Guide for Cisco ASR 9000 Series Routers* .

New and Changed System Setup Features

Feature	Description	Changed in Release	Where Documented
Optimized Size of Install Image	With this release, the size of the Cisco ISO image installed on the router is reduced by approximately 300 MB. This frees-up the disk space on the router, and speeds-up time taken for installing the package.	Release 7.3.1	Optimized Size of Install Image
Conforming to US DOD Login Banner Standards	With this release, you can enable a login banner that conforms to the standards of the US DOD login banner.	Release 7.3.1	Create a User Profile in XR VM
