

## Feature History

---

The following table lists the new feature supported in the Alarm Configuring and Monitoring Guide in Cisco IOS XE 17 releases, on Cisco ASR920 routers.

Feature	Description
<b>Cisco IOS XE Amsterdam 17.3.1</b>	
<a href="#">Support for New Alarm Profile based on the Telcordia Profile for Chassis</a>	The alarm profile based on Telcordia includes "Service Affecting" information for chassis entities. This information enables you to check the service affecting state for each alarm under a chassis.
