

# Unpacking the Router

This section includes instructions about how to unpack the Cisco 1240 Connected Grid Router and describes the items that ship with the router.

These topics are discussed:

- [Unpacking the Router, page 5](#)
- [Router Package Contents, page 5](#)

## Unpacking the Router

**Tip:** When you unpack the router, do not remove the foam blocks attached to antennas and antenna connectors. The foam protects the antennas and connectors during installation.

To unpack the router:

1. Open the shipping container and carefully remove the contents.
2. Return all packing material to the shipping container, and save it.
3. Ensure that all items listed in the [Router Package Contents, page 5](#) are included in the shipment. If any item is damaged or missing, notify your authorized Cisco sales representative.

## Router Package Contents

Your router kit contains the items listed in [Table 1 on page 6](#).

**Note:** Some items are optional and might not be included with the router if they were not ordered with the router.

**Table 1 Cisco 1240 Connected Grid Router Package Contents**

Qty.	Item	Description
1	Cisco CGR 1240	<p>Router enclosure, with the following components installed:</p> <ul style="list-style-type: none"> <li>■ <a href="#">Connected Grid Modules, page 113</a> (1 to 4, depending on configuration ordered)</li> <li>■ <a href="#">GPS Antenna, page 121</a></li> <li>■ <a href="#">WiFi Antenna, page 121</a></li> <li>■ <a href="#">Connected Grid Module Antennas, page 122</a> (1 to 7, depending on configuration ordered)</li> <li>■ <a href="#">2-GB SD Flash Memory Module, page 131</a></li> <li>■ <a href="#">AC Power Supply, page 28</a> (Power cable part number CGR-PWRCORD-NA or CGR-PWRCORD-EU must be ordered separately).</li> <li>■ <a href="#">Battery Backup Units, page 139</a> (0 to 3, depending on configuration ordered)</li> </ul>
