This chapter contains the following sections:

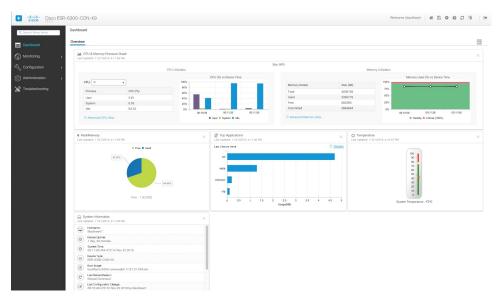

- Web User Interface, on page 1
- Compliance and Safety Information, on page 2
- RoHS (Restriction of Hazardous Substances), on page 2
- Related Documentation, on page 3
- Communications, Services, and Additional Information, on page 3

Web User Interface

The Cisco IOS-XE operating system provides a graphical user interface for monitoring and configuration of your device. The WebUI needs to be enabled before it can be used. Use these commands to enable it:

```
username admin privilege 15 password 0 passwordname ip http server ip http authentication local ip http secure-server
```

When launched, the initial display is a dashboard that looks similar to the following example:

Compliance and Safety Information

The ESR6300 was installed in a representative chassis, tested, and shown to meet the standards listed in the following table. Individual results will depend on final implementation. Formal compliance testing must be performed by the integrator in a fully assembled product.
