Scope

The information in this document is applicable to the Cisco LoRaWAN Interface Modules that currently include the following model:

- IXM-LPWA-800-16-K9

The equipment operating frequency range is:

- 863-870 MHz

National regulations may require that operations be limited to portions of the frequency ranges identified above and/or at reduced power levels.

Declaration of Conformity with Regard to the EU Directive 1999/5/EC (R&TTE Directive)

This declaration is only valid for configurations (combinations of software, firmware and hardware) provided and/or supported by Cisco Systems for use within the EU or countries that have implemented the EU Directives. The use of software or firmware not supported/provided by Cisco Systems may result that the equipment is no longer compliant with the regulatory requirements.
