About Multicloud Defense

Multicloud Defense (MCD) is a comprehensive security solution consisting of two primary components: the Multicloud Defense Controller and Multicloud Defense Gateway. These components collaborate to establish a secure multicloud environment.

Multicloud Defense currently supports Amazon Web Services (AWS), Azure, Google Cloud Platform (GCP), and Oracle OCI cloud accounts. The range of support for these platforms vary.

In essence, Multicloud Defense offers a sophisticated and streamlined security framework, harmonizing controller orchestration, gateway communication, and optimized datapath processing for a robust and efficient multicloud protection mechanism.

This documentation has been prepared for practitioners who have a basic understanding of public cloud networking and security concepts, and participate in various functional teams, including:

- Development Operations (DevOps and DevSecOps)
- Security Operation Centers (SOCs)
- Security Architects Info
- Sec Architects Cloud Architects

For more information on the components of this product, continue reading.

Additional Information

You can find additional information about Multicloud Defense in the following documents:

- [Multicloud Defense Release Notes](#)

Recommended Versions

We strongly recommend using the following releases for each Multicloud Defense component:

Multicloud Defense Controller

Version 24.02, February 26, 2024

Multicloud Defense Gateway

Version 23.08-15, March 27, 2024

Multicloud Defense Terraform Provider

Version 24.2.1, February 31, 2024

Supported Versions

The following versions are currently supported by Multicloud Defense components:

Multicloud Defense Controller Versions

- Version 24.02, February 26, 2024
- Version 23.12, December 14, 2023

Multicloud Defense Gateway

- Version 23.10-03, January 11, 2024
- Version 23.08-14, January 25, 2024
- Version 23.06-14, November 12, 2023

Multicloud Defense Terraform Provider

- Version 23.10.1, November 6, 2023
- Version 23.8.1, August 22, 2023
- Version 23.7.2, July 27, 2023
- Version 23.6.1 July 17, 2023
