

About this Book vii

Γ

Install Cisco x90 Series Content Security Appliances 1-1 Unpack and Inspect Cisco x90 Series Content Security Appliances 1-2 Prepare for Cisco x90 Series Content Security Appliances 1-3 Installation Guidelines 1-3 Safety Recommendations 1-4 Maintain Safety with Electricity 1-5 Prevent ESD Damage 1-5 Site Environment 1-6 Power Supply Considerations 1-6 Rack Requirements 1-7 Side Rail Adjustment Range 1-7 Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 STAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2 Rear Panel LEDs 2-4
Prepare for Cisco x90 Series Content Security Appliances Installation 1-3 Installation Guidelines 1-3 Safety Recommendations 1-4 Maintain Safety with Electricity 1-5 Prevent ESD Damage 1-5 Site Environment 1-6 Power Supply Considerations 1-6 Rack Requirements 1-7 Slide Rail Adjustment Range 1-7 Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 STALL Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Installation Guidelines 1-3 Safety Recommendations 1-4 Maintain Safety with Electricity 1-5 Prevent ESD Damage 1-5 Site Environment 1-6 Power Supply Considerations 1-6 Rack Requirements 1-7 Slide Rail Adjustment Range 1-7 Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Safety Recommendations 1-4 Maintain Safety with Electricity 1-5 Prevent ESD Damage 1-5 Site Environment 1-6 Power Supply Considerations 1-6 Rack Requirements 1-7 Slide Rail Adjustment Range 1-7 Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Maintain Safety with Electricity 1-5 Prevent ESD Damage 1-5 Site Environment 1-6 Power Supply Considerations 1-6 Rack Requirements 1-7 Slide Rail Adjustment Range 1-7 Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Prevent ESD Damage 1-5 Site Environment 1-6 Power Supply Considerations 1-6 Rack Requirements 1-7 Slide Rail Adjustment Range 1-7 Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 SHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Site Environment 1-6 Power Supply Considerations 1-6 Rack Requirements 1-6 Equipment Requirements 1-7 Slide Rail Adjustment Range 1-7 Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Rack Requirements 1-6 Equipment Requirements 1-7 Slide Rail Adjustment Range 1-7 Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 CISCO C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Equipment Requirements 1-7 Slide Rail Adjustment Range 1-7 Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Slide Rail Adjustment Range 1-7 Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Install Cisco x90 Series Content Security Appliances In a Rack 1-7 Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Use the Rack Kit to Install Cisco x90 Series Content Security Appliances 1-7 Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Install the Cable Management Arm (Optional) 1-10 Reverse the Cable Management Arm (Optional) 1-11 CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Reverse the Cable Management Arm (Optional) 1-11 CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
CHAPTER 2 Cisco C190 Email Security Appliance 2-1 Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Rear Panel Ports 2-1 Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Status LEDs and Buttons for Maintenance 2-2 Front Panel LEDs 2-2
Front Panel LEDs 2-2
Front Panel LEDs 2-2
Summary of Features 2-4
CHAPTER 3 Cisco C390 Email Security Appliance 3-1
Rear Panel Ports 3-1
Status LEDs and Buttons for Maintenance 3-2
Front Panel LEDs 3-2
Rear Panel LEDs and Buttons 3-4
Summary of Features 3-5

CHAPTER 4	Cisco C690 Email Security Appliance 4-1	
	Available Models 4-1	
	Rear Panel Ports 4-2	
	Models with Ethernet Ports 4-2	
	Models with Fiber Optic Ports 4-3	
	Status LEDs and Buttons for Maintenance 4-4	
	Front Panel LEDs 4-4	
	Rear Panel LEDs and Buttons 4-6	
	Summary of Features 4-7	
CHAPTER 5	Cisco M190 Content Security Management Appliance	5-1
	Rear Panel Ports 5-1	
	Status LEDs and Buttons for Maintenance 5-2	
	Front Panel LEDs 5-2	
	Rear Panel LEDs and Buttons 5-4	
	Summary of Features 5-4	
CHAPTER 6	Cisco M390 Content Security Management Appliance	6-1
	Available Models 6-1	
	Rear Panel Ports 6-1	
	Using Status LEDs and Buttons for Maintenance 6-2	
	Front Panel LEDs 6-2	
	Rear Panel LEDs and Buttons 6-4	
	Summary of Features 6-5	
CHAPTER 7	Cisco M690 Content Security Management Appliance	7-1
	Available Models 7-1	
	Rear Panel Ports 7-2	
	Models with Ethernet Ports 7-2	
	Models with Fiber Optic Ports 7-3	
	Using Status LEDs and Buttons for Maintenance 7-4	
	Front Panel LEDs 7-4	
	Rear Panel LEDs and Buttons 7-6	
	Summary of Features 7-7	
CHAPTER 8	Cisco S190 Web Security Appliance 8-1	
	Rear Panel Ports 8-1	

1

	Using Status LEDs and Buttons for Maintenance 8-2
	Front Panel LEDs 8-2
	Rear Panel LEDs and Buttons 8-4
	Summary of Features 8-5
CHAPTER 9	Cisco S390 Web Security Appliance 9-1
	Rear Panel Ports 9-1
	Using Status LEDs and Buttons for Maintenance 9-2
	Front Panel LEDs 9-2
	Rear Panel LEDs and Buttons 9-4
	Summary of Features 9-5
CHAPTER 10	Cisco S690 Web Security Appliance 10-1
	Available Models 10-1
	Rear Panel Ports 10-2
	Models with Ethernet Ports 10-2
	Models with Fiber Optic Ports 10-3
	Using Status LEDs and Buttons for Maintenance 10-4
	Front Panel LEDs 10-4
	Rear Panel LEDs and Buttons 10-6
	Summary of Features 10-8
CHAPTER 11	Maintain Cisco Content Security Appliances 11-1
	Monitor System Health 11-1
	Prepare for Cisco Content Security Appliance Component Replacement 11-2 Required Equipment 11-2
	Shut Down and Power Off the Appliance 11-2
	Serial Number Location 11-3
	Hot-Swap Replacement 11-3
	Replace Cisco Content Security Appliance Components 11-3
	Replace Hard Drives or Solid State Drives 11-4
	Drive Population Guidelines 11-4
	Drive Replacement Procedure 11-5
	Replace Power Supplies 11-6
	Install a DC Power Supply 11-7
	Enable Remote Power Cycling 11-9
	Remotely Reset Appliance Power 11-10
	11-10

APPENDIX A	Appliance Specifications A-1	
	Physical Specifications A-1	
	Environmental Specifications	A-2
	Power Specifications A-3	
	770 W AC Power Supply	A-3
	650 W AC Power Supply	A-4
	930W DC Power Supply	A-5
APPENDIX B	Power Cord Specifications B-	1
	Supported Power Cords and Plu	ugs B
	AC Power Cord Illustration	S B-4
