

# **Online licensing/MSLA/On-Prem**

This section describes how to get a license and applies to the following use cases:

- Getting a license through direct cloud access, over the internet or through a http proxy server.
- Getting a license as part of the Managed Service License Agreement (online and offline environments)
- Getting a license through an On-Prem access (online and offline environments)

#### You will:

- 1. Set Cisco Cyber Vision Center license (Essentials or Advantage).
- 2. Set transport mode (Direct and proxy connection or Transport gateway).
- 3. Set license payment mode (MSLA only) (MSLA only).
- 4. Create a token.
- 5. Register the Center.

Return to evaluation mode is explained at the end of this section and applies to all use cases mentioned above.

- Get a license, on page 1
- Return to evaluation mode, on page 11

# Get a license

## Set Cisco Cyber Vision Center license

Before starting with license registration, make sure that the license type set is relevant to the Center usage. You can choose between Essentials and Advantage. Note that changing this setting can cause additional costs.

To set the Cisco Cyber Vision Center's license:

#### Procedure

**Step 1** Navigate to System Administration > License.

**Step 2** Click "edit the Software Subscription Licensing".

**Step 3** Toggle the button to select the license type (Essentials or Advantage).

**Note** By default, the license type is set to Advantage.

Software Subscription Licensing	
Configure which functionalities the product will have     ESSENTIALS     Dynamic comprehensive asset inventory     Identify relationship between assets     Vulnerability detection     API for integration with IT Platform     History of events	Note that this setting can cause additional cost.     ADVANTAGE     All essentials features     Anomaly Detection, user-defined baselines     Signature based Detection

	Ok Cancel

## Set transport mode

A network path to Cisco license server must be set so the Center can communicate directly or through a proxy with the cloud, or with an on-site satellite. This section explains how to set the transport mode accordingly.

- In case of direct connection to the cloud or through a proxy, or if CSSM On-Prem is used (independently
  of the MSLA), refer to the Direct and proxy connection procedure.
- If needed or if CSSM On-Prem is used as part of the Managed Service License Agreement (MSLA), refer to the Transport gateway procedure.

## **Direct and proxy connection**

#### Procedure

Step 1 In Cisco Cyber Vision, click edit the Smart Call Home Transport Settings.

The transport settings window pops up.

- **Step 2** Select how the Cisco Cyber Vision Center will reach the CSSM (cloud).
  - The option Direct is selected by default. It means that the Cisco Cyber Vision Center has secure access to the Internet and can reach the CSSM server using a ciphered connection.
  - The option HTTP/HTTPS Proxy should be selected if the Cisco Cyber Vision Center has access to the Internet through a Proxy.

<ul> <li>Direct</li> </ul>	Product communicate dire	service. :tly with Cisco's licensing servers n/its/service/oddce/service/DDCEService	
O Transport Gateway	Proxy data via Transport G URL:	ateway or Smart software Manager Satellite	
O HTTP/HTTPS Proxy	Send data via an intermedia	ate HTTP or HTTPS proxy	
	IP Address:	Port:	
	User name:	Password:	

## **Transport gateway**

If required, or if the license is being deployed as part of the Managed Service License Agreement, set the transport mode as transport gateway.

To set the transport mode as transport gateway:

### Procedure

- **Step 1** In CSSM On-Prem, navigate to Smart Licensing > Inventory > General.
- Step 2 Click the link Smart Transport Registration URL.

**Step 3** Copy the Product Registration URL that is displayed in the pop-up.

## **Step 4** In Cisco Cyber Vision > Admin > License, click the link edit the Smart Call Home Transport Settings.

## **Create a token**

This section describes how to create a license token, set its expiration date and maximum number of use.

Note

As CSSM and CSSM On-Prem are equivalent products and have similar aspects, only screenshots of CSSM are shown in the procedure described below.

To create a token:

### Procedure

- **Step 1** Access and log in to the CSSM (or CSSM On-Prem).
- Step 2 In Cisco Software Central, under License, click Smart Software Licensing.

In Smart Software Manager On-Prem, click Smart Licensing.

- **Step 3** Click the Inventory menu.
- **Step 4** Click the New Token button.

Cisco Software (	Central > Smar	t Software Licensing				t.	InternalTestDemoAcc	count20.cisco.com

# **Register the Center**

To register the Cisco Cyber Vision Center:

Procedure				

**Step 1** In Cisco Cyber Vision, click the button Register.

1 You are currently running in Evaluation mode.
To register Cisco Cyber Vision with Cisco Smart Software Licensing:
<ul> <li>Ensure this product is set with the right Software Subscription Licensing (Essentials or Advantage). This might require you to edit the Software Subscription Licensing.</li> <li>Ensure this product has access to the internet. This might require you to edit the Smart Call Home Transport Settings.</li> <li>Log in to your Smart Account in Smart Software Manager.</li> <li>Navigate to the Virtual Account containing the licenses to be used by this Product Instance.</li> <li>Generate a Product Instance Registration Token (this identifies your Smart Account) and copy or save it.</li> </ul>
REGISTER

The Smart Software Licensing Product Registration window opens.

**Step 2** Paste the token into the text field and click Register.

L

The registration status should turn to Registered.

Smart Software Licensing					
To view and manage Smart Licen					
Smart Software Licer	nsing Status				
Software Subscription Licensing:	S Advantage VIEW/EDIT				
Registration Status:	⊘ Registered (Wednesday, August 12, 2020 2:53 PM)				
License Authorization Status:	⊘ No Licenses in Use (Tuesday, March 31, 2020 1:53 PM)				
Smart Account:	InternalTestDemoAccount20.cisco.com				
Transport Settings:	Direct VIEW/EDIT				

**Step 3** If Transport Gateway was selected when selecting the network path as it is the case when doing MSLA, the license mode will switch from Pre-paid to Post-paid usage subscription.

The installation of the license is complete and you can continue using Cisco Cyber Vision.

# **Return to evaluation mode**

To return to evaluation mode, you need to deregister the Center from the online reservation.

Once back to evaluation mode, the 90-day countdown resumes where it has stopped. If the countdown has reached zero, access to Cisco Cyber Vision user interface will be prevented.

To deregister the Cisco Cyber Vision Center:

### Procedure

**Step 1** In Cisco Cyber Vision, click the button Actions > Deregister.

 sco					₩ 8.

**Step 2** Confirm by clicking Deregister.

🔥 Confirm Deregistration				
If you deregister this Product Instance from Smart Software Licensing, it will no longer appear in Smart Software Manager and the licenses it is using will be made available for use by other products in the Virtual Account.				
Cisco Cyber Vision will return to Evaluation Mode.				
	Deregister Cancel			

The deregistration takes a few moments.

The Center will go in Evaluation mode and the registration status in Unregistered.
