

# Requirements

The following are required to successfully set up and use Cisco Secure Email Threat Defense:

- You have purchased Secure Email Threat Defense and received a welcome email.
- The latest version of one of the following browsers:
  - Google Chrome
  - Microsoft Edge
  - Mozilla Firefox
- If your Message Source is Microsoft 365 or your Visibility & Remediation mode uses Microsoft 365 Authentication:
  - A Microsoft 365 account with Global Admin rights.
  - An email address in your Microsoft 365 environment capable of receiving undeliverable journal reports. The email address used will not be journaled; do not use an address you want Secure Email Threat Defense to analyze.
