

Resolved Issues

Bugs listed for a patch were verified as resolved when that patch was initially released.

Note For your convenience, this document provides lists of resolved bugs for each patch. These lists are auto-generated once and are not subsequently updated. Depending on how and when a particular resolved issue was categorized or updated in our system, it may not appear in the release notes. You should regard the [Cisco Bug Search Tool](#) as the 'source of truth.'

- [Searching for Resolved Issues, on page 1](#)
- [Version 6.5.0.4 Resolved Issues, on page 2](#)
- [Version 6.5.0.3 Resolved Issues, on page 2](#)
- [Version 6.5.0.2 Resolved Issues, on page 4](#)
- [Version 6.5.0.1 Resolved Issues, on page 4](#)

Searching for Resolved Issues

If you have a support contract, you can use the [Cisco Bug Search Tool](#) to obtain an up-to-date list of resolved bugs for Firepower products. These general queries display resolved bugs for Firepower products running Version 6.5.0.x patches:

- [Firepower Management Center](#)
- [Firepower Management Center Virtual](#)
- [ASA with FirePOWER Services](#)
- [NGIPSv](#)

You can constrain searches to bugs affecting specific Firepower platforms and versions. You can also search by bug ID, or for specific keywords.

Version 6.5.0.4 Resolved Issues

Table 1: Version 6.5.0.4 Resolved Issues

Bug ID	Headline
CSCvq35440	Upgrade Enhancements to STRAP verification for anyconnect - Cisco VPN session replay vulnerability
CSCvs55990	Deployment failure with SI DNS configured on FTD managed locally / FDM
CSCvs86257	FMC Upgrade is failing at 800_post/1025_vrf_policy_upgrade.pl

Version 6.5.0.3 Resolved Issues

Version 6.5.0.3 was removed from the Cisco Support & Download site on 2019-02-04 (for FMCs) and 2020-03-02 (for devices). If you are running this version, it is safe to continue. The bugs listed here are also fixed in Version 6.5.0.4.

Table 2: Version 6.5.0.3 Resolved Issues

Bug ID	Headline
CSCvd33448	fireamp.pl using 100% Cpu after restore backup.
CSCvk55766	Try to assign devices to platform settings policy list of devices randomly disappear under policy
CSCvm85823	Not able to ssh, ssh_exec: open(pager) error on console
CSCvo76866	Traceback on 2100 - watchdog
CSCvp04134	Traceback in HTTP Cli Exec when upgrading to 9.12.1
CSCvp06526	Manage the sfhassd thread CPU affinity to match the Snort CPU affinity
CSCvp70833	ASA/FTD: Twice nat Rule with same service displaying error "ERROR: NAT unable to reserve ports"
CSCvq29167	Physical interface goes to link UP state in spite of disable interface during bootingup.
CSCvq46587	After failover, Active unit tcp sessions are not removed when timeout reached
CSCvq50587	ASA/FTD may traceback and reload in Thread Name 'BGP Router'
CSCvq51284	FPR 2100, low block 9472 causes packet loss through the device.
CSCvq76198	Traffic interruptions for FreeBSD systems
CSCvq81516	VPN events between 12 and 1 PM UTC are not displayed on the FMC

Bug ID	Headline
CSCvq87797	Multiple context 5585 ASA, transparent context losing mangement interface configuration.
CSCvq88644	Traceback in tcp-proxy
CSCvq93572	Unable to add user on FTD using external authentication
CSCvq96495	Console connection for FPR2100 is disconnected randomly about 20 minutes.
CSCvr13278	PPPoE session not coming up after reload.
CSCvr20486	FTD 1010 Passive interfaces does not receive unicast packets
CSCvr21803	Mac address flap on switch with wrong packet injected on ingress FTD interface
CSCvr25768	ASA may traceback on display_hole_og
CSCvr29978	Changing a rule and saving quickly might remove configuration.
CSCvr38379	Upgraded FTD will not reimage to base FTD version with the use of 'auto-install' feature in FPR2100
CSCvr50266	Dual stack ASAv failover triggered by reload issue
CSCvr53058	AC policy lookup done for SYN+ACK packet when tcp-intercept and a monitor AC policy is configured
CSCvr54054	Mac Rewrite Occurring for Identity Nat Traffic
CSCvr54980	FPR2100: Power doesn't turn off after turned off the power button on back of chassis
CSCvr55400	FTD/LINA traceback and reload observed in thread name: cli_xml_server
CSCvr55678	ClamAV zip-bomb Migration Vulnerability for 6.5.0.2 and above
CSCvr60111	configurations getting wiped off from standby, while deployment fails on active
CSCvr61492	device loading slow, related REST API calls
CSCvr66768	Lina Traceback during FTD deployment when PBR config is being pushed
CSCvr72665	FMC upgrading to 6.3/6.4 shouldn't remove existing deprecated flexconfig
CSCvr73115	Initial FTD Deploy After Policy Import causes Unused Objects which bloat policy size
CSCvr78166	Deployment failed on FTD with reason "failed to retrieve running configuration"
CSCvr78832	SSH: Newly created Local Users unable to login when device is managed locally
CSCvr81457	FTD traceback when TLS tracker (tls_trk_sniff_for_tls) attempted to free a block.
CSCvr82133	Unable to add routes and select interface from Device management page after FMC upgrade to 6.5

Bug ID	Headline
CSCvr84572	FMC 6.5 - Failed user login on FMC does not record entry in audit log
CSCvr85295	Cisco Adaptive Security Appliance Software and Firepower Threat Defense Software Remote
CSCvr86213	CD is required to ignore Cluster-Msg-Delivery-Confirmation in Cluster Node Release Lina State
CSCvr90768	FTD: Deployment through slow links may fail
CSCvs10443	6.5 CloudEvent code writes config files in a way that 6.4 code does not understand
CSCvs10526	Throttle SSE Attempts on FTDs
CSCvs15276	ERROR: entry for ::/0 exists when configuring ipv6 icmp
CSCvs32023	Disable egress-optimization by default
CSCvs39589	ASA doesn't honor SSH Timeout When Data Channel is not Negotiated
CSCvs40531	AnyConnect 4.8 is not working on the FPR1000 series
CSCvs53705	Anyconnect sessions limited incorrectly
CSCvs61555	Policy Deployment Failures and Intrusion Policy Editor hanging due to improper Snort deletion

Version 6.5.0.2 Resolved Issues

Table 3: Version 6.5.0.2 Resolved Issues

Bug ID	Headline
CSCvr52109	FTD may not match correct Access Control rule following a deploy to multiple devices
CSCvr88123	multi-deploy causes a sudden drop of intrusion events
CSCvs28768	Cisco Firepower Software WhatFix Walkthrough Data Issue

Version 6.5.0.1 Resolved Issues

Version 6.5.0.1 was removed from the Cisco Support & Download site on 2019-12-19. If you are running this version, we recommend you upgrade. The bugs listed here are also fixed in Version 6.5.0.2.

Table 4: Version 6.5.0.1 Resolved Issues

Bug ID	Headline
CSCva36446	ASA Stops Accepting Anyconnect Sessions/Terminates Connections Right After Successful SSL handshake
CSCvo88762	FTD inline/transparent sends packets back through the ingress interface
CSCvp29554	Watchdog traceback due to lina_host_file_stat calls
CSCvp69229	OpenSSL 0-byte Record Padding Oracle Information Disclosure Vulnerabil
CSCvp81083	ASA/Lina Traceback related to TLS/VPN
CSCvq09093	VPN Pre-deploy validations takes around 20 seconds for each device
CSCvq29969	Firepower Recommendations rule count changes even when not regenerated
CSCvq40943	FTD 4150 VPN s2s deployment failure with 6K spokes
CSCvq43453	Overrides cannot be added for port object if it is used in variable sets in sub domains
CSCvq45000	Policy deployment to FP 8000 sensor is failing when NAT is configured
CSCvq53915	Cisco Firepower Management Center Multiple Cross-Site Scripting Vulnerabilities
CSCvq56257	Cached malware disposition does not always expire as expected
CSCvq63024	Dual stacked ASA v manual failover issues
CSCvq67271	Retrieving an specific rule by ID of a child Access Policy returns a 404 : Not Found status.
CSCvq70485	Slow "securityzones" REST API
CSCvq70775	FPR2100 FTD Standby unit leaking 9K blocks
CSCvq83019	Long processing time to insert policy deploy task if many application filter object used in ACPolicy
CSCvq83168	DNS lookup using mgmt VRF not possible because FMC doesn't allow interface after server address
CSCvq92126	ASA traceback in Thread IPsec Message Handler
CSCvq93640	WRL6 and WRL8 commit id update in CCM layer (sprint 67)
CSCvq94729	Deployment rollback causes momentary traffic drop when error in a LINA ONLY section of delta cli
CSCvq95058	IPSEC SA is deleted by failover which is caused by link down
CSCvr00892	where clause not working for external data base access
CSCvr04954	FMC 6.4.0 - Stack unit on different Domain fails the deployment after upgrade

Bug ID	Headline
CSCvr07421	Policy deployment fails with 400+ interfaces in security zone due to incorrect formation of deployDB
CSCvr10777	ASA Traceback in Ikev2 Daemon
CSCvr11395	Only a subset of devices where deployed from a device group during scheduled deploy
CSCvr12018	ASA: VPN traffic fails to take the tunnel route when the default route is learnt over BGP.
CSCvr23580	Can't delete 2 or more than two IP address-pool
CSCvr25954	FTD/LINA Standby may traceback and reload during logging command replication from Active
CSCvr27445	App-sync failure if unit tries to join HA during policy deployment
CSCvr29638	HA FTD on FPR2110 crash after deploy ACP from FMC
CSCvr35956	Block double-free when combining ServerKeyExchange and ClientKeyExchange fails --> lina crashes
CSCvr36687	Overrides cannot be added for network object if it is used in variable sets in sub domains
CSCvr37486	established rules in asp table are not un-installed on config removal
CSCvr44123	Unable to login via chassis Manager or Rest api in FPR2100 if session timeout is non-deafult
CSCvr95287	Cisco Firepower Management Center LDAP Authentication Bypass Vulnerability
