

Status

The **Status** menu in the Admin UI is used by administrators to view system information, such as installed system packages and their version, detailed logs, and available storage.

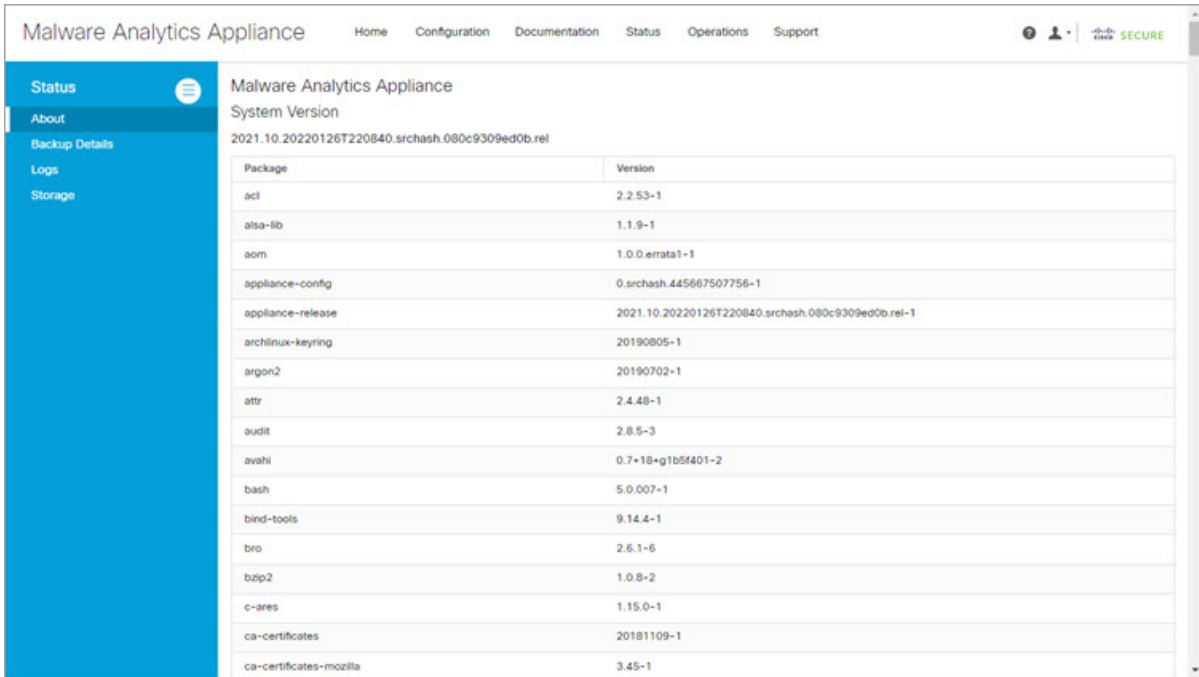

- [About, on page 1](#)
- [Backup Details, on page 2](#)
- [Logs, on page 3](#)
- [Storage, on page 4](#)

About

You can view the installed packages and their version on the **System Version** page in the Admin UI.

Step 1 Click the **Status** tab and choose **About** to open the **System Version** page.
