

OpAdmin Menus

This chapter provides an overview and screenshot of each of the menus in the OpAdmin portal to illustrate the various menu options that are available for performing tasks. It includes the following topics:

- Configuration Menu, on page 1
- Operations Menu, on page 2
- Status Menu, on page 2
- Support Menu, on page 3

Configuration Menu

The Configuration menu in the OpAdmin portal provides options for configuring your Threat Grid Appliance. Any changes that need to be made to your configuration, must be done using this menu to be in edit mode.
