Audience

This guide is intended for system administrators who install, configure, and maintain the Cisco Smart+Connected Meeting Spaces™ (Smart+Connected MS) application.

Organization

Title	Description
Chapter 1, “Getting Started”	Describes information on the architecture, prerequisites, and deployment models of the Smart+Connected MS application.
Chapter 2, “Installing the Smart+Connected MS”	Describes how to install and deploy the Smart+Connected MS application by using the Oracle database and JBoss application server.
Chapter 3, “Configuring the Smart+Connected MS Application”	Describes how to configure the Smart+Connected MS application after installation.

Document Conventions

Convention	Indication
Boldface	Commands, command options, and keywords are in boldface.
<i>Italics</i>	Arguments for which you supply values are in italics.
Option > Option	Used to describe a series of menu options.
<code>courier font</code>	Terminal sessions and information the system displays appear in courier font.

Note

Means *reader take note*. Notes contain helpful suggestions or references to material not covered in this guide.
