Audience

This guide is intended for individuals who are responsible for configuring the Cisco Smart+Connected Personalized Spaces (Smart+Connected PS) application. The tasks described in this guide are the administration-level tasks.

Document Organization

Chapter Number	Chapter Title	Description
Chapter 1	Getting Started	Provides an overview of the Smart+Connected PS application, and helps in getting started with the application.
Chapter 2	Managing the User Profile Images	Describes how to add, update, and delete the profile images of the Smart+Connected PS application users.
Chapter 3	Managing the Fault Items	Describes how to manage the fault items in the Smart+Connected PS application.
Chapter 4	Managing the Quick Response Codes	Describes how to generate and download the QR codes.
Chapter 5	Managing Features	Describes how to manage the configuration features in the Smart+Connected PS application.
Chapter 6	Managing Reports	Describes how to generate five types of reports to assess the workspace utilization.
