Audience

This guide is intended for system administrators who install, configure, and maintain the Cisco Smart+Connected Personalized Spaces (Smart+Connected PS) application.

Document Organization

Chapter Number	Chapter Title	Description
Chapter 1	Introduction	Provides an overview of the Smart+Connected PS application, and describes the architecture, prerequisites, and deployment models of the application.
Chapter 2	Installing the Smart+Connected PS on WebLogic	Describes how to install and deploy the Smart+Connected PS application by using the Oracle database and WebLogic application server.
Chapter 3	Installing the Smart+Connected PS on JBoss	Describes how to install and deploy the Smart+Connected PS application by using the PostgreSQL database and JBoss application server.
Chapter 4	Configuring the Smart+Connected PS	Describes how to configure the Smart+Connected PS application after installation.

Document Conventions

Convention	Description
Boldface	Commands, command options, and keywords are in boldface.

Send documentation comments to scc-docfeedback@cisco.com

Convention	Description
<i>Italics</i>	Arguments for which you supply values are in italics.
Option > Option	Used to describe a series of menu options.

**Note**

Means *reader take note*. Notes contain helpful suggestions or references to material not covered in this guide.
