- [Overview, on page 1](#)

## Overview

The Cisco ACI supports security features that can protect your network against degradation or failure and also against data loss or compromise resulting from intentional attacks and from unintended but damaging mistakes by well-meaning network users.

For information on Core Fabric Services, see [http://www.cisco.com/c/en/us/td/docs/switches/datacenter/aci/apic/sw/2-x/basic\\_config/b\\_APIC\\_Basic\\_Config\\_Guide\\_2\\_x/b\\_APIC\\_Basic\\_Config\\_Guide\\_2\\_x\\_chapter\\_011.html](http://www.cisco.com/c/en/us/td/docs/switches/datacenter/aci/apic/sw/2-x/basic_config/b_APIC_Basic_Config_Guide_2_x/b_APIC_Basic_Config_Guide_2_x_chapter_011.html).
