

New or Changed Commands

The following table describes new and changed commands in Release 5.2(1)SP1(7.1).

Table 1 *New and Changed Information in Release 5.2(1)SP1(7.1)*

New or Changed Command	Added	Changed	Removed	Feature	Configuration Document
show network uplinks	X			Interface Information	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 5.2(1)SP1(7.1)</i>
show network port-channel database	X			Interface Information	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 5.2(1)SP1(7.1)</i>
show network port-channel capacity	X			Virtual Service Blade	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 5.2(1)SP1(7.1)</i>
show network port-channel usage	X			Virtual Service Blade	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 5.2(1)SP1(7.1)</i>
show network Interface <int_name>		X		Virtual Service Blade	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 5.2(1)SP1(7.1)</i>
show network		X		Virtual Service Blade	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 5.2(1)SP1(7.1)</i>
show network summary		X		General	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 5.2(1)SP1(7.1)</i>
show network virtual-service-blade name<vsb_name>		X		General	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 5.2(1)SP1(7.1)</i>
show network cdp neighbors		X		General	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 5.2(1)SP1(7.1)</i>

The following table describes new and changed commands in Release 4.2(1)SP1(6.1).

Table 2 *New and Changed Information in Release 4.2(1)SP1(6.1)*

New or Changed Command	Added	Changed	Removed	Feature	Configuration Document
interface name mode passthrough		X		VSB	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(6.1)</i>
numcpu		X		VSB	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(6.1)</i>

The following table describes new and changed commands in Release 4.2(1)SP1(5.1).

Table 3 *New and Changed Information in Release 4.2(1)SP1(5.1)*

New or Changed Command	Added	Changed	Removed	Feature	Configuration Document
control uplink	X			Uplinks	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(5.1)</i>
channel-group	X			Uplinks	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(5.1)</i>
interface <interface_name>	X			Uplinks	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(5.1)</i>
interface uplink	X			Uplinks	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(5.1)</i>
interface uplink	X			Uplinks	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(5.1)</i>
management uplink	X			Uplinks	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(5.1)</i>
network-uplink type		X		Uplinks	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(5.1)</i>

The following table describes new and changed commands in Release 4.2(1)SP1(4).

Table 4 *New and Changed Information in Release 4.2(1)SP1(4)*

New or Changed Command	Added	Changed	Removed	Feature	Configuration Document
native VLAN	X			Native VLAN	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(4)</i>
show network uplinks	X			Uplinks	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(4)</i>

The following table describes new and changed commands in Release 4.2(1)SP1(3).

Table 5 *New and Changed Information in Release 4.2(1)SP1(3)*

New or Changed Command	Added	Changed	Removed	Feature	Configuration Document
export	X			Virtual Service Blade	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(3)</i>
import	X			Virtual Service Blade	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(3)</i>
interface <interface_name>	X			Virtual Service Blade	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(3)</i>
show network counters	X			CDP	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(3)</i>
show network port-channel usage	X			CDP	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(3)</i>
show virtual-service-blade name vpx1		X		Virtual Service Blade	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(3)</i>
shutdown	X			Virtual Service Blade	<i>Cisco Nexus Cloud Services Platform Command Reference, Release 4.2(1)SP1(3)</i>
