

O Commands

This chapter describes the Cisco Nexus 1000V commands that begin with the letter O.

option exporter-stats timeout

To specify a timeout period for resending NetFlow flow exporter data, use the **option exporter-stats timeout** command. To remove the timeout period, use the **no** form of this command.

option exporter-stats timeout *time*

no option exporter-stats timeout

Syntax Description	<i>time</i> Timeout period. The range is between 1 and 86400 seconds.
Defaults	None
Command Modes	Netflow flow exporter version 9 configuration (config-flow-exporter-version-9)
SupportedUserRoles	network-admin

Examples This example shows how to configure a 3600-second timeout period for resending NetFlow flow exporter data:

```
n1000v# configure terminal
Enter configuration commands, one per line. End with CNTL/Z.
n1000v(config)# flow exporter ExportTest
n1000v(config-flow-exporter)# version 9
n1000v(config-flow-exporter-version-9)# option exporter-stats timeout 3600
```

This example shows how to remove the timeout period for resending NetFlow flow exporter data:

```
n1000v# configure terminal
Enter configuration commands, one per line. End with CNTL/Z.
n1000v(config)# flow exporter ExportTest
n1000v(config-flow-exporter)# version 9
n1000v(config-flow-exporter-version-9)# no option exporter-stats timeout
n1000v(config-flow-exporter)#
```

Related Commands	Command	Description
	flow exporter	Creates a Flexible NetFlow flow exporter.
	flow monitor	Creates a Flexible NetFlow flow monitor.
	flow record	Creates a Flexible NetFlow flow record.
	option interface-table timeout	Specifies a timeout period for resending the NetFlow flow exporter interface table.
	show flow exporter	Displays information about the NetFlow flow exporter.
	show flow monitor	Displays information about the NetFlow flow monitor.
	show flow record	Displays information about NetFlow flow records.

Command	Description
template data timeout	Specifies a timeout period for resending NetFlow flow exporter template data.
version 9	Designates NetFlow export version 9 in the NetFlow exporter.

option interface-table timeout

To specify the timeout period for resending the NetFlow flow exporter interface table, use the **option interface-table timeout** command. To remove the timeout period, use the **no** form of this command.

option interface-table timeout *time*

no option interface-table timeout

Syntax Description	<i>time</i>	Timeout period. The range is between 1 and 86400 seconds.
---------------------------	-------------	---

Defaults	None
-----------------	------

Command Modes	Netflow flow exporter version 9 configuration (config-flow-exporter-version-9)
----------------------	--

SupportedUserRoles	network-admin
---------------------------	---------------

Examples	<p>This example shows how to configure a 3600-second timeout period for resending the NetFlow flow exporter interface table:</p>
-----------------	--

```
n1000v# configure terminal
Enter configuration commands, one per line. End with CNTL/Z.
n1000v(config)# flow exporter ExportTest
n1000v(config-flow-exporter)# version 9
n1000v(config-flow-exporter-version-9)# option exporter-stats timeout 3600
```

This example shows how to remove the timeout period for resending the NetFlow flow exporter interface table:

```
n1000v# configure terminal
Enter configuration commands, one per line. End with CNTL/Z.
n1000v(config)# flow exporter ExportTest
n1000v(config-flow-exporter)# version 9
n1000v(config-flow-exporter-version-9)# no option exporter-stats timeout
n1000v(config-flow-exporter)#
```

Related Commands	Command	Description
	flow exporter	Creates a Flexible NetFlow flow exporter.
	flow monitor	Creates a Flexible NetFlow flow monitor.
	flow record	Creates a Flexible NetFlow flow record.
	option exporter-stats timeout	Specifies a timeout period for resending NetFlow flow exporter data.
	show flow exporter	Displays information about the NetFlow flow exporter.
	show flow monitor	Displays information about the NetFlow flow monitor.
	show flow record	Displays information about NetFlow flow records.

Command	Description
template data timeout	Specifies a timeout period for resending NetFlow flow exporter template data.
version 9	Designates NetFlow export version 9 in the NetFlow exporter.
