New and Changed Information for this Release

The following table provides an overview of the significant changes to this guide for this current release. The table does not provide an exhaustive list of all changes made to the configuration guide or of the new features in this release.

Table 1: New Features

Feature	Description	Where Documented
Power On Auto-Provisioning	Power On Auto Provisioning (POAP) automates the process of upgrading software images and installing configuration files on Nexus switches that are being deployed in the network for the first time.	Using PowerOn Auto Provisioning
