Note If you do not receive a part that is listed in this document, contact Cisco Technical Support at this URL: <http://www.cisco.com/warp/public/687/Directory/DirTAC.shtml>.

If you purchased this product through a Cisco reseller, you may receive contents in your kit, such as documentation, hardware, and power cables.

The product shipment includes a power cord for each 3-kW AC or Universal AC/DC power supply. You supply a grounding cable (6 AWG recommended) for up to 45 A.

The shipped cables depend on your specification when placing an order.
