

# DHCP

## Overview

<<sushs: need more information about overview, usage, and examples>>

## DHCP REST APIs

The DHCP REST APIs can be used by an external application to manage the DHCP settings used with Power On Auto Provisioning of the network devices

The DHCP REST APIs are mentioned in [Table 3-1](#).

**Table 3-1** DHCP REST APIs

API Function	HTTP Method	Resource at URL <a href="https://dcnm-ip/rest/">https://dcnm-ip/rest/</a>
List POAP scopes	GET	/poap/dhcp/scopes
Create a POAP scope	POST	/poap/dhcp/scopes
Update a POAP scope	PUT	/poap/dhcp/scopes/{scope-name}
Delete a POAP scope	DELETE	/poap/dhcp/scopes/{scope-name}
