Preface

Audience

This document is written for managing the Cisco Catalyst 3850 Series Switches and the Cisco 3650 Series switches and switch stacks in their network. A basic understanding of Ethernet networking is expected. Cisco Certified Network Associate level (CCNA) knowledge is helpful, but not required.

Conventions

This document uses the following conventions:

Convention	Indication
italic blue font	Example configuration values that are replaced with reader values.
bold font	Commands and keywords and user-entered CLI appear in **bold** font.
italic font	Document titles, new or emphasized terms, and arguments for which you supply values are in *italic* font.
[ ]	• Default responses to system prompts are in square brackets. • Elements in square brackets are optional.
{x | y | z}	Required alternative keywords are grouped in braces and separated by vertical bars.
[x | y | z]	Optional alternative keywords are grouped in brackets and separated by vertical bars.
string	A nonquoted set of characters. Do not use quotation marks around the string, or the string will include the quotation marks.
`courier` font	Terminal sessions and information the system displays appear in `courier` font.
< >	Nonprinting characters such as passwords are in angle brackets.
!, #	An exclamation point (!) or a pound sign (#) at the beginning of a line of code indicates a comment line.

> **Note** Means *reader take note*. Notes contain helpful suggestions or references to material that is not covered in the manual.

Tip The tips information might not be troubleshooting or even an action, but could be useful information, similar to a Timesaver.

Timesaver You can save time by performing the action described in the paragraph.

Obtaining Documentation and Submitting a Service Request

For information on obtaining documentation, using the Cisco Bug Search Tool (BST), submitting a service request, and gathering additional information, see *What's New in Cisco Product Documentation* at: http://www.cisco.com/c/en/us/td/docs/general/whatsnew/whatsnew.html.

Subscribe to *What's New in Cisco Product Documentation*, which lists all new and revised Cisco technical documentation as an RSS feed and deliver content directly to your desktop using a reader application. The RSS feeds are a free service.
