

# APPENDIX **A**

## Parts List Sorted by Carton

---

Revised: July 13, 2012, OL-21177-01

### Overview

- With the exception of carton 1, each carton is identified with a round label on the outside of the carton. This label includes a number. This appendix uses the same numbering scheme that is used on the labels.
- The sub-cartons in carton 1 also use labels and this appendix uses that numbering scheme for those labels as well.
- Each carton may contain multiple parts. Some of these parts are grouped together in kits. Each kit is a smaller box contained within the carton.
- Each kit is identified with an ID number.
- If the kit also contains boxes or bags, each one is identified with an ID number.

### Carton 1: Consolidated Carton for Various Cisco TelePresence Parts

Cisco TelePresence ships with a carton that contains sub-cartons. These cartons are listed in the following sections.

**Note**

---

This carton does not have a label on the outside of the carton. All other cartons use the labels.

---

### Sub-Carton 1: Accessory Kit, 53-3355-01, CTS3K-ACC-G2

**Note**

---

This sub-carton has a label with the number 1 on the outside of the carton.
